REP. ERSON BARLOW.

An act to provide that the proportion of the tax collected of each domestic business corporation by the commonwealth of Massachusetts shall be distributed, credited and paid to the city or town in which the business of the cerporation is carried on.

Be it enacted by the senate and

Bo it enacted by the senate and house of representatives in general court assembled, and by authority of the sena as follows:

the same, as follows:
Section 64 of Part III of chapter 490 of the acts of the year nineleen hundred and nine is hereby amended by striking out after the word "charged" in line 63 and in lines 64, 65, 66, 67, 68. in line 65 and in lines 64, 65, 66, 66, 68, 76 and 71 to the word "proportion" the words, "one-half of such proportion of the fax collected of each domestic business corporation as corresponds to the proportion of its stock owned by persons residing in this commonwealth shall be distributed, credited and paid to the several cities and towns in which, the several cities and towns in which, from the retuins or other evidence, it appears that such persons resided on the preceding first day of May, according to the number of sharps so held in such cities and towns respectively. The other half of "said" and inserting before the word "proportion" in line 71 the word "such" and after the word "proportion" in line 71 the words "of the tax collected of each domestic business corporation." so as to read as follows:

the word "such" and after the word "the word "such" and after the words "of the lax collected of sach domestic business corporation." so as to read as follows:

Section 64. No taxes shall be assessed in a city or town for state county or town purposes, upon the shares in the english stock of curporation, companies or associations have been founded by the county of the lax collected of each corporation, company or association such that the such county and that seed of cach corporation, company or association in the three such as follows:

Such proportion of the tax collected of each corporation, company or association in the three such county and that a hearing has been done of the such corporation and frast companies and collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, company or association in the tax collected of each corporation, street influence the proportion of its stock dwind by persons resulting and that a hearing has been formation in the tax collected of each corporation, company or association in the collected of each corporation, company or association in the tax collected of each corporation, and that a hearing has been formatically and that a hearing has been formation of the fact of the collected of each corporation of the fact of the collected of e

made good his ante-campaign promise to introduce into the legislature a bill providing that henceforth all of the tax sevied upon business corporations shall be paid into the city or town in which the corporation does business. or rather in which the plant of the corporation is located.

For some time past Rep. Barlow has been husy on the draft of the bill and been husy on the draft of the bill and been husy on the draft of the bill and been husy on the draft of the bill and been husy when the legislature convened Rep. Barlow was one of the first men to get to the clerk with husiness of the new year and his tax bill was the first if it is find sent in and one of the first of new year and his tax bill was the first if it is find sent in and one of the first of new year and his tax bill was the first if it is find sent in and one of the first of new year and his tax bill was the first if it is find sent in and one of the first of the clerk. As in the bill will be reported tomorphotory in the bill will be reported tomorphotory in the bill will be reported tomorphotory in which the plants were located, while the bill will be reported tomorphotory in which the plants were located, while the corporation tax went to the cities and lowes in which the plants were located. While the corporation tax went to the cities and lowes in which these great corporations amount of money legislature. Paul River, New Bedford, etc., in which these great corporations do business and whose operatives were in reality paying the tax, received bull little in return. Last year, however, a bill was possed increasing in which the corporations carried on in which the corporations carried on in the corporation in a corporation and to the corporation of the tax of the corporation is not a corporation to the crop that the corporation is not been taxed under the provisions of clauses Fourth, Fifth, Sixth and located to can do the corporation in the tax of the corporation in the corporation in the corporation of the tax of the corporation in the co

NEW YORK, Jan. 6.-Four strikin shirt waist makers, who were fined \$25 collectively yesterday, for their activities as pickets, paid their lines in cents. It took the entire clerical force of the court nearly half an hour to count the 2500 coins, while the girls looked on in sardonic any season.

sardonic amusement.

Miss Anne Morgan is still active in behalf of the girls in the face of criticism from within the ranks because of her attacks on socialism. The strike goes on without compromise.

Levellie in the crimson robes of the cardinal, was another particularly striking ilgure. The court characters went through a stately march and concluded by the passing of his majesty and other principal personages under a floral arch made in the middle of the floor by the S0 gentlemen and ladirs-in-walting, bolding floral hoops over their heals, while the military guards formed guards of honor on either side. Passing under this arch the king and his suffer proceeded to the stage, where two thrones had baen set, with chairs behind them for the courtiers. After the kind and queen had taken their places, the courtes flood by, each making a deep courtes; as he or she passed on to reach his or her seat. The King's Entertainment

Would Not Promise Stop Drinking

Waldron denied that he was drunk. He admitted that he had taken a few drinks, but said he could not be called nloxicated.

intoxicated,
Wagon Officer Frawley who accompanied Waldron to the police station testified that the man was drunk.
The court offered to place Waldron on probation on condition that he abstain from liquor, but the man refused to promise that he would do so. He was then fined \$2.

Rather than promise that he would give up drinking Thomas Waldron, who appeared before Judge Hadley in police court this morning, preferred to be fined. In almost every instance when a man is given a chance to be placed in the custody of the probation officer the offer is accepted, but it was not so with Waldron.

Waldron was arrested in Lakeview avenue last night by Patrolman John F. Conlon after the former's wife had complained to the officer. She told the officer that her husband had locked her out of the house. Patrolmen Conlon went to the Waldron house and finding that the man was in an intexticated condition placed him under arrest.

Waldron denied that he was drunk. He admitted that he had taken a few Wilks, but said he could not be called intoxicated.

Use treatment to trouble treatment of the world in the officer will be the probability of the probability of the arresting officer said that he had been notified by one of the clerks that. Heroux had tried to purchase parls green. The arresting officer said that the man was suffering from the effects of liquor and was on the verge of collapse when placed under arrest.

Heroux said that he found the man in Osgood's drug store in Merrimack street. He that Heroux had tried to purchase parls green. The arresting officer said that the man was suffering from the effects of liquor and was on the verge of collapse when placed under arrest.

Heroux said that he had been notified by one of the clerks that. Heroux had tried to purchase parls green. The arresting officer said that the man was suffering from the effects of liquor and was on the verge of collapse when placed under arrest.

Heroux said that he had been notified by one of the clerks that. Heroux had tried to purchase parls green. The arresting officer said that the man was suffering from the effects of liquor and was on the verge of collapse when placed under arrest.

Heroux said that he had been drink-ing some, but did so at the doctor's ordinary to be in poor health and needed to drink spirituous liquo

Other Offenders

Rose McDermott, charged with drunkenness, was placed on probation. John Swanson, who claims he has a home in Tremont street, Hoston, was fined \$6.

A Misstatement

to promise that he would du so. He was then fined \$2.

Placed on Probation

Hormisdas Heroux, who was arrested a week ago Monday and sent to the city hospital to recuperate, appeared in court this morning and entered a contribute towards the support of his wife, but yesterday's week. Such was not the fact, how in court this morning and entered a contribute towards the support of his wife, but yesterday that order was incharging him with being drunk. Pa-

300 WERE INJURED

Three Deaths Resulted From the Storm in New York

NEW YORK; Jan. 6.—Death stalked with the storm which afflicted New York and vicibity all, through the night and which was still dispressingly provatent over a wide area surrounding this city today.

Not, in many years has there been a visitation that caused such a long chapter of serious and fatal accidents to be written.

At least three deaths and injuries to more than three hundred persons were reported as a result of falls on the slipperry walks and nevements coated from huilding line to building line with ice an even quarter of an inch thick.

Sefety was to be found nowhere and conditions as the city awoke to the business of today were secious. Fall

ONE MAN IS DEAD

Two Others Were Overcome

BOSTON, Jan. 6.—The fumes of coal that the room was filled with coal gas gas escaping from a small stove in a and all three men were unconscious. O'Connor died in an ambulance on the way to the hospital. caused the death of one of them early today while the two others were carly today while the two others were taken to the city hospital in a pre-carlous condition. The dead man is Daniel O'Connor, aged 60 years, while Patrick Raherly and Martin Galely, each aged 35, are not expected to rever. The discovery of the men's condition was made by the daughter of the proprietor of the lodging house, op anden park street, Roxhury, where the men lived. When she went to call them this morning there was no response. Opening the door she found

RECEIVER APPOINTED

AMDEROIA The newest EDISON

—A wonderful musical instrument, a beautiful piece of furniture—a Phonograph with the horn built in as a part of the cabinet.

A trained musician may purchase a piano, simply for the beauty of its tone and the lightness of its action.

The real home maker will purchase for this and more. The instrument purchased must be a delight to the eye as well as to the ear—a part of the home. And that is just "the why of the Amberola"— combining as it does, all the tonal beauty of the Edison Phonograph, with the added richness, simplicity and charm of a masterpiece of cabinet work comparable only to the highest grade piano.

The Amberola comes in several finishes of Mahogany and Oak to harmonize with surroundings in your home. It has drawers in the lower part for holding 120 records. The price

is \$200.00. Hear the Amberola at your dealer's today play both Amberol and Standard Records.

Slezak—And he sure to ask to hear the new Grand Opera Amberol Records by Slezak-the great tenor of the Metropolitan Opera House, New York, who is the greatest Grand Opera sensation since the days of Jean DeReske.

YOUNG PRODIGY TEXTILE SCHOOL

Addressed the Harvard New Bedford Institution Mathematical Club

CAMBRIDGE, Jan: 6.-William J. Sidis of Brookline, the 11 year old Textile school, at the annual meeting prodigy, whose intellectual attainments enabled him to enter Harvard of 1910 for an additional appropriauniversity as a special student, addressed the Harvard Mathematical "Four Dimensional Bodies." This is one of the deepest and most involved of the courses in higher mathematics.

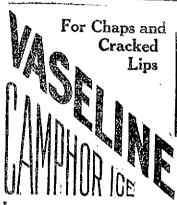

For over two hours the boy student entertained a hundred students and professors with his resume of the various theorems concerning four dimensional bodies, his expositions being declared most clearly presented and ably supported.

this week, voted to ask the legislature tion for the purpose of erecting an adclub last night upon the subject of cently acquired W. C. Vaughan land dition to the institution, on the renorth of the present structure, and also to ask the city of New Bedford to appropriate \$10,000, an increase \$3000 over the usual amount of the citys share.

The exact amount to be asked of the state has not yet been determined, this matter being left to the executive committee to decide, with power to ascertain the needs of the school for the coming year. The usual state appropriation for the school is \$18,000.

President Willam E. Hatch said recently that the increase of mill population which will come here following ignation of Robert McArthur, for 23 building will probably increase the evening attendance at the school to fully 1000 within two years, and someincrease. The Vaughan land, on which the addition will be built, has a frontage of 116 feet on Purchase street.

It is proposed to put the chemical department, dye house and machine shop in the new portion of the building when completed, thus leaving enough room in the original structure to extend the carding, spinning, weaving and other departments. The trusters have tees have a committee now working on tentative plans for the new building.

Big Increase in Attendance

There has been a marked increase in the number of evening pupils dur-ing the past year, there being an en-rolment of 671 at the present time, as compared with 509 a year ago. The

as compared with 509 a year ago. The number of day pulpils has also increased from 40 to 48.

Since the school started the number of day pupils has Increased from six or seven to 43, and the evening attendance has more than doubled. These facts were brought out in the report of Principal Floury M. Nichols, who said that the big increase in attendance has necessitated the employment of two additional evening instructors, besides requiring more work by the original instructors.

During the year, Principal Nichols reported, textile machinery firms have donated to the school machinery to the value of \$6860.75, and there have been many purchases of new equip-

occn many purchases of new

ment.

A new power plant, with a 155 bolier, and 100 kilowatt generator, is now in process of installation.

Since the school was started, the state has contributed machinery and equipment and funds for their maintenance, amounting to \$243.786.15, and machinery firms have contributed machinery to the value of \$60,000. Contributions from the city of New Bedford amounted to \$98,000.

Boston Schooner Landed at San Juan

BOSTON, Jan. 6 .-- Sailing for Norfolk and bringing up at Porto Rico was the experience of the four-masted schooner Henry W. Cramp. Capt. Nash, which left here Dec. 14. The storm-beaten vessel got into San Juan yesterday morning with part of her sails blown away after having been driven 1000 miles out of her course.

News that the vessel was safe spread rapidly in shipping circles and was comforting information for the owners of other schooners which are long overdue. The Cramp was out longer than the others and the absence of any tidings had led to the belief that she had met with disaster,

belief that she had niet with disaster.

She ran through a dozen terrific gales and hurricanes and was driven back and forth on the coast. The last gale that hit her sent her reeling off to the southwest. Her foresaft, mizzensaft and spanker were blown away and she was raked from stem to stem. Capt, Nash sent a brief cablegram to the owners in this city amounting the arrival of the schooner and adding that, sails would have to be sent so that he could proceed north.

Norfolk mabout 500 miles from here, while San Juan is something like 1400 miles away. Capt. John G. Crowloy, the managing owner of the Cramp, has arranged to ship the needed sails immediately.

Capt. Nash resides in Everett. It is believed that the new sixmaster Wyoming and the schooners Grace A. Martin and Lewistun, which are also long overduc, were driven off the coast in the same gales and that they will be heard from at some port in the West Indies. in the West Indies.

DEATH

BOSTON. Jan. 6.—Awakened from a sound slumber to find her room filled with smoke, Marie Evilo, a 19 year old girl living in the tenement block 30-82 Bennett street, south end, yesterday, aroused 40 other men, women and children in the building and then, aimost suffocated by the smoke, fell exhausted on the top floor. She was saved from death by the prompt action of Captain Dolan and the men of ladder 17, who made a dash through the burning stair-BOSTON. Jan. 6.-Awakened from a ways and brought her to the street,

SUPREME COURT SENT

Labor Act

under the age of 14 years is intended to apply to theatrical productions as swell as to work in factories and mercantile establishments in the opinion of the full bench of the Massachusetts supreme court in a decision handed down yesterday. In the spring, 1909, Frank C. Griffith, a manager, was fined \$50 for employing two children, one nine and the other thirteen years of age, in a play that was being produced in a local theatre. The superior court held that the child labor law extended to the theatres, and Griffith carried the case to the supreme court, which sustained the lower court. In its opinion the court holds that the statute covers any employment which involves "constant attention that requires effort of physical or mental strain."

for Atlantic City and on July 10 brought home the bacon in the Atlantic City Marathon in 2 hours, 50 minutes and 50 seconds. Holmer has also established many other world's records. He has splendid leg action. Experts say his form is faultless. Hans says he owes his strong leg action to snowshoeing. He spent many happy days on snowshoes in the Canadian woods. The exercise strengthened his thighs, and it is there he gits his remarkable "lift." Like the best of the Marathoners, Hans does not attempt to run high up on his toes—in fact, he does not ge in on his toes for even the shorter distances. Experts say Holmer eventually will be crowned as the world's greatest Marathoner.

CAPT. BARTLETT

to North Pole

Capt. Robert Bartlett, who was second in command of the polar expedition of Commander Peary and the man who was to make a try for the pole in the event of anything happening which would prevent Peary from making the dash, gave a very interesting as well as instructive lecture in Colonial hall last night before a large and appreciative audience. The affair was under the auspices of the Lowell Art association.

pedition was due entirely to Capt. Peary's tireless planning and said that it was because he had profited by the greenee of his previous expeditions that enabled him to reach the pole on the last expedition. The food supply was sufficient, the sledges were adequate for the strain put upon them and the plan of sending men ahead to break out the trail, all went to make his trip a success.

Capt. Bartlett presented this latter plan of the trail at some length, illusond in command of the polar expedition

Numerous stereoption fildes were shown, snabling the audience it better understand the lecture.

Rev. Charles T. Billings, chairman of the lecture committee of the association, introduced Capt. Bartlett. He paid a very high tribute to Cupl. Peary and contradicted the stories that Peary was severe with his men.

He stated that the success of the expedition was due entirely to Capt. Peary's lirreless planning and said that it was because the had profited by the experience of his, previous expeditions in the last expedition. The food supply was surficient, the sledges were adequate for the strain put upon them and the plan of the trail, all went to make his feth a success.

Capt. Bartlett presented this latter. Plan of the trail, all went to make his feth a success. Capt. Bartlett spraw well of forty hours. Capt. Bartlett spraw well of the main and lecture from the trail at some length, litus-lived the trail, all went to make his feth a success.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1909 was

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilotte, pressman, of The Sun, before J. JOSEPH HENNESSY, Notary Public, me, January 1, 1910.

This is by far the largest average circulation of any newspaper in Lowell.

A woman who says she and her family are in want has written The Sun telling her circumstances, but she has failed to give either name or address. People in such circumstances should consult some member of the charity board or call at the office of that body.

HAVERHILL'S CONFIDENCE OF SUCCESS.

The city government of Haverhill seems to be the most confident of all that inaugurated officials last Monday. It seems that the government by commission under the new charter has thus far been a complete success. The chief officials assert that many doors to reckless expenditure have been closed and that the city will always get full value for its money on every dollar expended. The charter is new as yet and it is safe to say that none but the best men have been allowed to hold office under its provisions. With

men of a different character in charge a very different state of affairs might result.

**Mactyn Arhuckle says the biggest lask of his life, and the one requiring the most grit, was the flashlight ing the most grit, was the flashlight was set off she jumped, with her trank around his neck. This affectionate who killed Mme. Gouin, a prominent French lady, while riding on a train near Paris. The woman's body was found under the train and the clue which led to the detection of the soldiers was the bloody thumb print of one of the men on a railroad ticket given the conductor. This is but another proof of the value of the finger print system in the identification of criminals and the clue of the men on a railroad ticket given the conductor. This is but another proof of the value of the finger print system in the identification of criminals.

LOWELL OPERA HOUSE

**Mactyn Arhuckle's says the biggest has his life, and the one requiring the most grit, was the flashlight was set off she jumped. When the stage, and pose for other pictures, but each time the flashlight was set off she jumped. When the stage, and pose for other pictures, but each time the flash light the one requiring the most grit, was the flashlight was set off she jumped. This is flash light with her trank around his ne proof of the value of the finger print system in the identification of criminals or others and its great assistance to detectives and police departments in general.

TO INVESTIGATE HIGH PRICES.

The department of agriculture is to investigate the high prices of food. The agents of the department seem to believe that the farmers are not getting a fair share of the profit from the high prices, and that either the middle man or the retailer is reaping the principal benefit from the high prices. There is little room for doubt that speculators and trusts are responsible for the very high price of farm product. It will be interesting to know what conclusion the department of agriculture will reach in the matter. There is certainly need of a movement to expose the agencies responsible for putting up the cost of living to its present high figure. The government, we believe, is largely responsible for the state of affairs on account of the high tariff which shats out foreign competition and shelters trusts that can stamp out domestic competition.

MRS. DUFF'S CAMPAIGN CIRCULAR.

The campaign going on in Boston for the school board has its amenities as well as the compaign for the mayoralty. Mrs. Julia E. Duff is quite a figure in the school campaign, and one of the documents she has issued recently has attracted considerable attention. She holds that more time should be given in the primary and grammar schools to reading, writing and arithmetic, to the old fashioned book-learning and to forming habits of accuracy and concentration of thought. She says further, it is time to leave our teachers unhampered and unintimidated and to have efficiency rather than age a test of ability.

One of the features of her campaign circular is the reproduction of a set of examination questions for the pupils of the Hancock school in Boston in 1854 or 56 years ago. The list of questions which she prints is certainly far more difficult than would be submitted to any grammar school class at the present time. Indeed it is doubtful if many high school pupils could answer all of them. We shall give two of the most brief as an example:

What is the area of each of the four largest equal circles that can be drawn within the square containing 2116 feet?

If the centres of the reveral sides of a square be the extremities of the diagonals of an inscribed sonare whose area is 625 inches what is the area of that part of the former square cut off by one side of the latter?

If Mrs. Duff submitted the examination paper of 1854 to the grammar school pupils of today the percentage attained, we believe, would be less than 25 percent. Her argument for more attention to the essential branches should appeal to the common sense of the people. It is one of the greatest needs of the public school system today.

THE DRIVE AGAINST ENGINEER BOWERS.

The common council has apparently some grievance against City Engineer Bowers, judging from the fact that it voted for a different candidate. If there is any charge against Mr. Bowers that could in any way be urged as cause for his removal, it should be made public, but if there be no charge, as we believe there is none. City Engineer Bowers should not be removed simply because somebody else wants the position. Furthermore, if an attempt he made to remove Mr. Bowers for political reasons the demoexatic members of the city council should remember that they are therefore under a double obligation to vote for him.

No new engineer, however capable, could take charge of that department and attain anything like the efficiency shown by Mr. Bowers without years of experience. To place a man in the engineer's office without the familiar technical knowledge which Mr. Bowers possesses of every detail of our sewerage system, water levels, grades and other detail in regard to streets, roads and bridges, emergencies might arise in which the city would suffer heavy loss. The members of the city council who vote against Mr. Bowers are not voting for the best interests of the city,

Moreover, as a matter of municipal gratitude, Mr. Bowers should be retained in the office, because it was through his engineering skill, his foresight and investigations that we came to adopt the incomparable driven well system for the water supply which we enjoy today. The man who was mainly instrumental in giving us one of the best water supplies in the country should receive at least fair treatment at the hands of officials who may not be cognizant of the invaluable service which he has rendered

"THE GHL FROM RECTOR'S" "The Girl From Rector's" which played for seven months at Weber's Music Itall, New York, holds every record there. Despite the fact the capacity of the house is considered small the receipts during its remarkable run never ran less than \$14,000 t week.

JOHN DREW

JOHN DREW

The snartest theatrical event of the current season will be the appearance of John Drew at the Lowell operations for one night, Friday, January 21st, when this most delightful of all English speaking light comedians will be seen in his newest comedy success, "Inconstant George," a play in which he recently closed one of the most successful, New York engagements of his long career.

"ISBARIL"

"ISRAEL,"

"ISRAEL,"

Henri Bernstein's "Israel," which is generally regarded as the biggest dramatic play the stage has seen in a great many years is said to be not only a more than interesting dramatic narrative but it possesses the action of ideas as well as physical action. The basic principle of the play—the great central fieu—is the never threadbare science of the conflict between the Henry and the Christian. The play is said to be action, action aid the time and in the great second act the spectator is carried along as if by a resistics shoot. With the complete Manhatian production and the original cast Charles Frohman will present "Israel" at the opera house soon.

HATHAWAY THEATRE

A specially selected combination of A specially selected combination of acts at Hathaway's theatre this week cannot full to attract very large audiences. Just the proper mixture of pathos and galety is shown. In the former class may be mentioned Homer Lind in his touching little musical play called "The Opera Singer," and Ethil Fuller in "A House of Cards," the latter strongly dramatic and gripping from the outset. These two plays surely apply the requisite "straight" touch to the bill.

On the lighter side are the Quigley Brothers, who revel in maint Hiber-

On the lighter side are the Quigley brothers, who revel in quant Hiber-nlattisms, and who are in a class by themselves when it comes to their special line of endeavor; Alva Magili, an attractive character singer, and Goff Phillips, a ministrel jester. The Four Casting Dunbars do some thrilling midair work, and LeCompt, the hind opens the program well. Motion pictures close it.
Performances will be given every ofternoon and evening during the re-

mainder of the week, with special seats at the matinees for women.

ACADEMY OF MUSIC

At the Academy for the remainder of this week Luken's Troup of performing lions have been obtained by the minagement at great additional expense. When you see Prof. Luken put his family of great cats through their tricks you will realize the padichie and perseverance, to say nothing of the courage he must have had to accomplish the results shown. Miss ing of the courage he must have had to accomplish the results shown. Diss Juliette Wood will appear in imitations, entirely new motion pictures will be shown, and aliss Chaudia Bessette, the singer of illustrated songs, will appear at each performance. Prices remain, the same as usual, 5 and 10 cents.

.....THEATRE VOYONS

The Theatre Voyons offers today a picture that in subject is most up-to-date as its has for its plot a story of an airship war, such as may be seen hundreds of years hence. "A Battle in the Choude" is the title of this remarkable picture. The principal scene shows a battle in mid-air with several airships in action, also the destruction of a village by fire of the invading airships. There are many other pictures on the bill and the sough are well selected and finely suos. lected and finely sung.

.....STAR THEATRE

The Spanish song birds, two elever The Spanish song bras, two clever young women, have one of the most moved help ever seen. The singing by both young women is excellent and is warmly applanded. An Oriental skelch is a feature. There are new motion pictures, and illustrated songs. The admission of five cents allows a sent.

MATHEW PICTURE PALACE

Fireless Cooker Free to users of Mother's Cereals

These cereals are famous for quality among the housewives of America. Carefully our buyers collect the finest grain in all American markets. They are known as being finicky. Carefully our mills pick

from this cream the ripest, choicest grains. Carefully our mill hands pick from these kernels the biggest, the fattest, the finest. Only the best grains ever find their way to a Mother's package. Carefully this product is selected from the select, is cleansed, then sterilized and packed in a Mother's sanitary package. Here is a list of Mother's Cereals. Every one is the best of its kind.

Mother's Oats

to make their cooking easy, but erushed to make them easily digested.

Mother's Wheat Hearts (The cream of the wheat). .

Is a pure granulated wheat food, thoroughly sterilized and easily digested.

Mother's Corn Flakes (Toasted) The best corn, big, full, sweet corn, shaved as thin as a whisper and toasted into a rich golden yellow.

and makes the best gruel.

Mother's Old Fashioned Steel Cut Oatmeal Thoroughly pan roasted, all of the natural sweetness of the oats retained

Mother's Yellow Corn Meal

the corn bread, cakes, mush and muffins.

Mother's White Corn Meal

Carefully prepared from the finest and cakes. The kind dearest to the heart of the southern housewife.

Mother's Granulated Hominy
Made from carefully selected white

corn, by modern methods of manufacture. A food far superior to the ordinary hominy. Mother's Coarse Pearl Homing

Made from selected white flint corn of the highest quality. Coarser than Mother's Hominy Grits and requires a little longer in the cooking.

The Mother's Oats Fireless Cooker, given free with coupons found in Mother's Cereals, needs no fuel of any sort. Ask your grocer how you can get one free. If he doesn't keep Mother's cereals, send us his name and yours and we will send you free a useful souvenir.

Massachusetts:

In presenting my second message for your consideration, I desire first to thank the people of Massachusetts for their renewed expression of confidence in me.

Finances

The net direct debt of the commonwealth of Masaschusetts on Dec. 1, 1909, was \$18,980,755.42. This debt on Dec. 1, 1908, was \$17,669,372.69. During the past year, therefore, the net direct state debt increased \$1,-\$11,382.73. The net metropolitan debt, or contingent debt, as it is called in the auditor's report, was, on Dec. 1, 1909, \$60,676,311.03. On Dec. 1, 1908, this debt was \$60,428 -223.14—so that this debt has increased during the past year \$248, 087.89. There have been issued during the year, charged to the net state debt for permanent improvements, new bonds amounting to \$2,326,300, while bonds have been paid amounting to \$2,552,500. The metropolitan debt was increased by bonds issued for permanent improvements amounting to \$1,643,000, and was decreased by payment of bonds to the amount of \$8000 and a contribution to the sinking fund of \$1,368,912.11.

The receipts from miscellaneous sources of revenue during the year ending Dec. 1, 1909, were \$7,694,-776.10. The state tax was \$4,500,000, so that the total revenues for the year. exclusive of cash on hand, amounted to \$12,194,776.10. There was paid out for expenses during the year \$12,-822,559.24, so that the cash on hand was quite substantially reduced from Dec. 1, 1908, to Dec. 1, 1909.

We have in the last year, in both classes of debt, issued bonds for permanent improvements, but we have not increased either class of debt as much as the amount of such bonds. The net debt was, however, in each case greater on-the first day of December, 1909, than it was on the first day of December, 1908,

The annual charge for interest on the net direct debt in 1909, reckoned at 31/2 percent, would be something more than \$650,000 a year; while on the metropolitan debt the annual interest charge, which has to be paid by the metropolitan district, at the same rate of 31/2 percent, would be more than \$2,100,000 a year.

I call these matters to your attention, and ask you to seriously consider whether it is not time, in making your appropriations, to provide for a substantial payment each year tion and a definite plan. It also seems to me that it is time that the principal of the metropolitan

I therefore recommend that such action be taken. Education

The reorganized board of education was appointed on the thirtieth day of first day of July. The members have necessarily had little chance to do conditions and engage a commissioner of education. As the old commission on industrial education and its officials went out of office whon the tention to the ordinary routine work and get the new board thoroughly, organized. They have now engaged their commissioner, and are carefully studying the questions which come within their province, especially the matter of industrial education, and how hest to adapt it to our present school system.

They find that the statutes under which industrial schools may be and have been established are not clear; and, because of this lack of clearness, many questions have arisen in the past, under the commission on industrial education, in regard to socalled independent industrial schools. which need to be settled and which can be cleared up only by new legislation. The board of education will ask for such action as it decas neces sary, and will explain in detail the reasons therefor and what it desires to accountlish.

This question of industrial educaharmony with, and very likely become that now required by the United a part of, our public school system, is a great one." The board has not had time as 'yet to properly 'study' out and formulate a définite policy. It is not desirable that the commonwealth should rush into this matter haphazard, and without careful considera-

and it is inadequate.

new board came in, the members of should be effected, so that the com- ing a week of most active service, the new board were themselves obliged monwealth may be divided into dis-during which time there was some to devote a great deal of time and atshall superintend all the conditions Arrangements were made to prevent which was required until they could under which animals for food are fires, and the damage done to the gages will not discharge his mortgage: It is thus possible for savings decide on a commissioner of education slaughtered, and who shall also examine the carcasses to see that they and men was almost negligible. are in proper healthful condition to be sold for food

The appointment by the commonwealth of a given number of such inspectors to look after these conditions would cost considerable; but people would be better protected from disease than they now are in the mean pensé, although quite an item, should. not be controlling. While the expense be relieved of that which they now have to incur for inspection.

I recommend that careful consideration of this subject be given, and that action be taken so that all these condilions may be improved and a new system of local slaughtering established; and I suggest that the standtion and how it shall be worked in ard of inspection be made the same as States government. I do not thick worse than in many of the other states, but we cannot afford to be which is the best; and I urge prompt and wise action in dealing with this most important question.

Milk Conditions

The production of milk and the way it shall be sold is a problem which seems very difficult to solve satisfactorily to both the producers and consumers. There has been much discussion as to whether the standard now required by law, of 12.15 percent of milk solids and 3.35 percent of fat, which will relieve the situation. This buy small sections of land in differis right. I do not pretend to express an opinion based on knowledge in this hospital school at Canton, which is a be used for the storage of their marespect, but I have not been able to new school, doing well a very import- chinery; and, when opportunity ofsee any way in which the consumer ant work. and the honest producer of milk can maintained by law.

While I thoroughly believe in a ducers, because milk from other states; now ninety inmates. on he sold in Maccael farmers.

It is further a fact that for some the commonwealth of Massachusetts is decreasing. In the year 1908 there in 1907, and on Nov. 30, 1907, the record showed a decrease of nearly less in Massachusetts at the beginning of 1909 than there were at the that the keeping of cattle for milk in Massachusetts is not an industry that is growing, but one that is declining, This is unquestionably had for the commonwealth. As the consumption other states. Our farming industry in this respect is not Mourishing. It is not profitable for the farmer to raise patients, and sell milk under existing condi-

tions. I believe that the legislature should pass laws, if necessary, so that the farmers of this commonwealth can ship their milk through the direct who practically handle the shipping sublet these privileges to any one.

additions to our institutions as ard money into such developments. I understand and believe that Important and extensive improvements are very hospital for inchristes have arrived soon to be undertaken on these propat the point where they desire to make ertles, and I think it is in the interest of all our citizens that those making these large expenditures for such improvements should be encouraged to do so. I therefore recommend that: these bonds be made a legal investment for Massachusetts savings banks. Savings Banks and Trust Companies

Prior to the passage of the business law of corporations, savings banks and trust companies were organized by special law and their charters made subject to the laws regulating the business of such corporations. There was no authority to organize such cor-porations nader general laws. The general law of business corporations enable them to make a start in the co-operative banks, but also enacts that "such provisious should not be construct to prohible the organization to my altention that where land is of a corporation under the provisions bought by various boards of trustees, of this act for the purpose of carrying on any lawful business, outside of

general laws, subject to no supervision iside the state.

The result is that there are two may be organized in this commonsupervision, the other to do husiness such supervision and subject to no restriction,

This condition seems anomalous, and I recommend the subject to your consideration for correction.

Givil- Service

The work of the civil service commission has become much greater in HALL & LYON CO., 67-69 Merrimek at, large increase in the number of people who are employed in the classified service. our towns and cities could also be obauthority to advise and assist the local tree wardens.

Publicity

I recommend the enactment of a law which shall require the nually of a public document containing correct information in regard to the salaries or pay of the employes and members of each department. hoard or commission, so that such salary or pay, and also the date of election or appointment and residence of each officer or employe of the commonwealth, may be easily accertained. Senators and Representatives:-I

am glad to say that the material couditions in the communwealth and the nation have been very much better during the past year than they were in 1908. The great crops of the west have been bountiful, and the prices of which they have sold have been high, The cotion crop of the south is probably less than usual, but the farmers who raised it have received such good prices for their product that they are presperous. The manufacturing industries in all thes are busy, and the people are employed at good wages. The whole nation is prosperous. As a people, however, we are not

economical; we are unnecessarily wasting our natural resources, and extravasance has become a habit. The price of everything is high, and this ought to put a premium on economy, This is not a proper time or place to discuss the regsons for these highprices, but it is well known that the enormous increase in the production of gold and the higher wages paid in every vocation of life must be two or the great contributory causes. In spite of these high prices, Mas-

suchments has been extremely prosperous and our savings banks have shown the largest increase in deposits of any year in our history, the toing the total amount of deposits now While economy should be constantly ... Massachuretts caunot expect great points. The dividends declared to business, try The Sun "Want" college.

these banks in 1969 were about \$16,-000,000 more than in 1908, while the withdrawals of deposits in 1909 were \$15,000,000 less than in 1908.

The above shows in a most graphic manner the tremendous change in conditions which has taken place in the last year. Notwithstanding the prevailing high prices, our people. have saved money, and this means prosperity.

You, as the representatives of the people, have a sacred trust imposed upon you. It is your duty to see that the resources of the commonwealth sholl not be wasted, and that the money of its citizenc shall be wisely and properly expended. The legislatures of the past in Massachusettz have established a great record for the enactment of laws which have been in the true Interest of the people. Your immediate predecessors maintained the high standard which had been set for them. I have no doubt that you will do equally well, and I promise to use my best endeavors to co-operate with you in accomplishing

To Discuss Peace With Pres. Madriz

MANAGUA, Jan. 6.—Managua is jubilant over the prospects of early peace, President Madriz made public this evening a telegram which he had received from General Fornes Diaz, one of the leaders in General Estrada's insurgent army, saying that he was leaving Rama for Managna to discuss the situation with the president.

General Diaz's telegram follows:

"Be assured of our patriotism and of General Metawick becamely advanced."

General Estrada's honorable character. I am leaving for Managua to settle the country's situation with you di-

ectly.

President Madriz also gave out a telegram, which he has received from General Estrala, in twhich Generals Gonzales, Castrillo Gonez and other

congains, Castrino fromez and other prisoners are reported as well.

Minister General Baca has issued a decree, fixing 1,000,000 pesses, gold, which is equivalent to 9,000,000 paper, as the amount of the forced war tax. Zalaya only levied a tax of 2.000,000

paper.

One quarter of the new tax is to be collected immediately. The decree has caused construction.

Minister Baca has explained privately that no offense was intended towards the United States in his speech at the hunguet given in honor of General Irias when he said that the course of the receiving of the r at the uniquet given in honor of Gen-cral trius when he said that the course of the revolutionists was re-ceiving encouragement from some quarters and that the inhabitants of Granada were growling at the feet of miner officers of the United States. Minister Baca protests that he has a great admiration for the United States. great admiration for the United States

Details of the Great Deal

NEW YORK, Jan. 6 .- Details of the Guaranty-Morton-right avenue Trust Co merger were made public last night after a meeting of the boards of directors of the three companies. Among other things a further increase was authorized in the capital stock of the Guaranty Trust company as futher head, from \$2.000,000 to \$5,-

mings. Upon the completion of the inerger the Guaranty Trust Co, will bave a capital stock of \$5,000,000 with surcapital stock of 35,000,000 with sur-plus, including all analytical profits, of approximately \$21,000,000 and com-bined deposits of \$126,000,000.

Says That Sum of \$50,000,000 **Escapes** the Assessors

Tax Commissioner Trefry's report, held by individuals or companies, were Tax Commissioner Trefry's report, filed yesterday, contains fewer recommendations than usual, as the tax laws were codified into one chapter last year. He calls attention to the fact that chapter 586 of 1907, designed to provide for a tax on express companies, failed as a source of revenue.

Under the law of 1908, which gave certain powers to the commissioner, to recommend to local assessors a revision of their assessment, the report says that the commissioner induced boards.

have been possible for the commissioner, he says, to show to local boards of assessors this fall more than \$50,000,000 worth of property upon which they could have collected taxes.

On the matter of taxing trust funds held by trust companies, Mr. Trefry says that before the codification, funds held by such companies were subject to taxation by the state at the rate prevailing for taxing corporations. The result was that all trust funds, whether

EDITOR KNOWLES

BY ATTORNEY KELLAR

DEADWOOD, S. D., Jan. 6,- Former Congressman Freeman Knowles, editor of a socialist weekly newspaper, was publicly horsewhipped yesterday at a neeting of the board of county commissioners by Chamber Kellar of Lead, attorney for the Homestake Mining Co. Kellar told Knowles that he would not submit to the severe strictures about him in Knowles paper and proceeded

BULIVIA AND AHGENTINA
LA PAS, Bolivia, Jan. 6.—The tone
of the Bolvian newspapers respecting
the reconciliation of Bolivia and Argentina indicates that there are little
prospects of the two countries renewing
diplomatic relations, notwithstanding
the efforts of friendly nations, amongst
which the United States is the most
prominent.

THE ANDREE EXPEDITION

WAS PUBLICLY HORSEWHIPPED

BOLIVIA AND ARGENTINA

prominent.

The newspapers insist upon criticising Argentina's arbitration award, pointing out that Bolivia has not instituted a renewal of relations and insisting that the dignity of Bolivia be maintained.

DUDLEY REMOVED

WASHINGTON, Jan. 6.—For having assisted clatmants having business with the local land office at Juneau, Alaska, in a manner wholly incompatible with his duties as register of that office. John W. Dudley was removed. The recommendation therefore was made by Secretary Bullinger. It was amaiounced officially also, that Mr. Dudley "seriously neglected the work of his office."

THE ANDREE EXPEDITION
BANGOR, Me., Jan. 6.—Just hefore a
lecture which he delivered here last
night. Commander Peary took occasion
to discredit the reports of the discovery
of the remains of Andree's bolloon, 900
miles north of Prince Albert. Sasketchewan, in the Arctic circle. Fig is
confident that the Andree expedition
never reached the pole.

RECENT PLAYS AND THOSE WHO ACT THEM

[New York Dramatic Correspondent.]

HE most interesting recent dramatic incident has been the production of "The School For Scandal" at the New the-ater. As an attraction it has appealed both to the older and to the younger generations of playgoers. The juniors were glad to make the acquaintance of a comedy of which they had heard so much, and to the seniors it brought the joys of reminiscence. Every theatrical veteran has his own idea as to how the piece should be played and associates gusta Evans' "St. Eimo."

formance, "but do you happen to remember John Gilbert in the part?". "I have not forgotten William Warren," returned the other reproachfully.

"A delightful Mrs. Candou..." admitted a stately dame to her equally im-

MISS MARIE TEMPEST.

regret dear Mme, Ponisi,"
"Surely, my dear, you must be think-

ing of Mrs. Drew," suggested the other. And all the while a skeptical junior who overheard these opinions was convinced that the Mrs. Candour before "you don't seem to understand-first his eyes, most intelligently acted by page-blg type-great half tones. Why, Rose Coghlan, was far beyond the comparison.

It was not so easy to recall any actress of the last half century who was grew sadder and more sad. "Go and especially identified with the role of ask her for yourself," he advised hope-

lent, and half a dozen cung women succeeded admirably in the part, but none was pre-eminent. It is a character so full of opportunity that almost acter so full of opportunity that is must be acter.

The interviewer went and returned the music is catchy and the dialogue "The Merry Widow" and the waltz in afternoon," said Crane, "I went down of "David Copperfield," Edward Copperfield, "The Dollar Princess," to the theater to look about and found, but the fact. It will never be a success it was only \$206. Never before had it The play makes a decided appeal to

every character with the name of rome particular player of former days.

"A most satisfactory Sir Peter, I grant you," declared one grayheard to another at the close of the first performance, "but do you happen to retomed to the dreadful things hinted at in the story and are also on more familiar terms with our dictionaries Even now, however, the language in-digenous to St. Elmo Murray and ac-quired subsequently by Edna Earle seems truly awful. If for no other purpose than to confute the specious falla-cles of those who maintain that dictionaries and cyclonedias are of little practical use the raison d'etre of St. Eimo has long been justified. The dramatization by Willard Holcomb is rather cleverly done, and the outcome is a play that is far from being tire-

> No actress with the London hall mark is more interesting to a refined American audience than Miss Marle Tempest, who is playing an engage-ment at the Lyceum theater in "Penelope," W. Somerset Maugham's come dy. It would be a very poor play in-deed that Miss Tempest couldn't make interesting, and the author of "Penel-ope" is in great good fortune to have her for its center of interest. She made a phenomenal run for it at the London Comedy theater, and her clever wit will keep it on the American stage until Easter, which she has named as the limit of her visit this time. After that-who knows?

some, especially when the leading parts are in the hands of two such

capable actors as Vaughan Glaser and

Fay Courtenay.

One of the most striking peculiarities fostered by Maude Adams is her dislike, almost horror, of newspaper publicity. She is recognized as the despair of press agents, whose clever methods of waking up the lethargic public do not appeal to her. Many a promising scheme to exploit her and her doings in the limelight has been made of no avail by her energetic interference. A case in point came to light recently. The representative of a big metropolitan daily called at the office of her manager and stated that he had been anthorized by his paper to obtain a posing neighbor, "but one cannot but full page interview with the actress for the Christmas edition. The manager sighed regretfully and shook his head,

"I can give you her address, but it will be useless," he said. "But," explained the newspaper man,

The theatrical man's countenance

none was pre-eminent. It is a character so full of opportunity that almost are pretty woman of average intelligence may make it attractive. Grace George makes it much more than that, and she looks as if she might have stepped from one of Gainsborough's canvases.

ANOTHER CRANE STORY.

William H. Crane, now starring in Father and the Boys," tells this story close companions. There must be a sweet, appealing note in the music, and stepped from one of Gainsborough's canvases.

ANOTHER CRANE STORY.

William H. Crane, now starring in Father and the Boys," tells this story close companions. There must be a sweet, appealing note in the music, and severy great musical comedy success in the fact. It will never be a success it the demant of plaintiveness is left out.

Laughter and tears are indeed very close companions. There must be a sweet, appealing note in the music, and severy great musical comedy success in musical comedy. "It is the canvases in musical comedy." It is the publicity work that Miss Holland every great musical comedy success has it—as, for instance, the plaintive minor waltz in capacity of the theater. "During the looked pretty sol-lass not only received innumerable of \$200. We both looked pretty sol-lass not only received innumerable of \$200. We both looked pretty sol-lass not only received innumerable of \$200. We both looked pretty sol-lass not only received innumerable of \$200. We both looked pretty sol-lass not only received innumerable of \$200. We both looked pretty sol-lass not only received innumerable of \$200. We both looked pretty sol-lass not only received innumerable of \$200. We both looked pretty sol-lass not only received innumerable of \$200.

CAPABLE MISS WILSON.

Few actresses of long experience could have handled a "stage door John-ny" more effectively than did Miss Flora Wilson recently in a western city, although that brilliant daughter of the secretary of agriculture of the United States is now on her first con-

cert tour as a professional singer.
As she was leaving the hall where she had been singing with Karl Klein and Harold Osborn Smith, who accompany her on the violin and piano, the two instrumentallsts remembered that they had forgotten to collect the sheet music after the performance and reurned to the stage.

Miss Wilson stepped outside to get the fresh air, of which she is fond. As she did so a very young man came forward somewhat timidily and said with

"May I go home with you? I'm afraid"— He was probably about to add, "You'll find the walk lonely," but Miss Wilson caught at the word, "Poor child!" she said, looking down

at the fragile youth with a benign glance. "Of course you're afraid. Your nother will be worried to death about you. But I can't take you home myself. Wait a moment and I'll ask one of my friends to call a policeman to see you safely to your door,"

The embarrassed youth took one look at Miss Wilson's powerful proportions—she is an athletic girl—and fied.

THE DANGEROUS HORSE.

Recently in New York city three well known Americans narrowly escaped death from accidents with horses. Former Secretary of State Robert L. Bacon, who is now ambassador to France, has been in bed with five broken ribs and a broken collar bone. Fletcher Harper, son of one of the Harper brothers, publishers, and himself the best amateur steeplechase lockey in America, was painfully in-jured by a borsa that fell on him and crushed him. The third is John Drew whose horse stumbled and rolled or ilm in Central park, breaking his col ar bone. Mr. Drew, however, says that spite of this unfortunate occurrence he does not intend to give up riding. MISS "Riding," he says, "has saved more lives than it has cost. If a man works hard in town an hour's exercise in the often questions the children about other often questions. realth and happiness and the reverse."

AN APT ANSWER.

Mildred Holland, who has deserted the stage temporarily for the lecture platform, has had many amusing ex-periences in her new and unique avo-

to \$200. We both looked pretty sol-emply at one another, and at last I fers from different lecture bureaus, said, I don't know what's the matter, which she has no present intention of I do, said Robson. Bill, they're get-ting on to us."

accepting, but the attendance of chil-dren at "David Copperfield" has been wonderfully increased.

Miss Holland, besides telling the children of the merits of the Dickens play,

COURTENAY AS EARLE IN "ST. ELMO."

matters to gain, their interest. In one school in Wilkesbarre the actress asked a small boy what supported the earth.

earm.
"Atlas," replied the boy promptly.
"Well, what supports him?" asked
the actress in a spirit of fun.
"He must have married a rich wid-

tween these men have proved to be ing rapid improvement. The speciacle ing up casy money without much over frosts. The enthusiasts want to see of these two young men in a champion—exertion. Some time ago he decide the younger stars in action.

to die out. So this is the tappe was put on the best possible attraction. In fact, the fans are hungry for it.

Sutton, Slosson, Morningstar, Cutler and Cline are all high class players, but they have been before the public but they have been before the public only a few years, and he, too, is maknown years. Recent contests be-Demarest is practically a newcomer all sport lovers

of these two young men in a champion-ship match would therefore appeal to all sport lovers. bor, and he amounted that during the winter he expected to clean up about \$30,000. But wily Abic evidently overlooked the fact that the managers of the Phoenix club of Memphis were able to tell a real fight from a fake. champlon engaged in two bonts before the club, each going the limit of eight rounds, with inferior opponents.

As a result the Memphis promoters, charging that Attelf did not try his best in either affair, bave barred him from all future events at the club, rolling that may carry some weight with promoters in other cities.

Attell is a splendid boxer and a sure enough champion at the featherweight limit, but he is lacking in ambition and energy. He has lost a small for-tune on the postes and at several other games of chance and is at the present time flat broke, yet he is still convinced that he can beat them.

Attell can easily demonstrate his

skill as a puglist by making a match with Jem Driscoll, the English feather-weight, who gave him such a hard battle in New York last winter. Several good sized purses have been offered for the contest here and abroad. A

featherweight. The pair have met three times, and the contests resulted in draws. In taking on these two fellows

strain of further controversy. "We are praying," says Mr. Dudley

may come forward and defend himself.

Mrs. Cook is at her husband's side. She
loves him and trusts him. There has
heen no quarrel, there never was any
trouble between them about money."

Mrs. Dudley received a message yesterday, she said, from Walter Lonsdale,
Dr. Cook's secretary, dated Copenhagen, and reading as follows:

"Cable Fred's address at once. All
important. Must' see him now."

Mrs. Dudley has not answered the
message yet, because she fears it may
be a trap. The doctor has had a disheartening collapse, she said, and it is
important that his seclusion shall not mportant that his seclusion shall no be disturbed. She says she is aware of the doctor's whereabouts, but will not

turned yesterday from Montreal, where he spent the last two weeks at the bedside of a brother, who is critically Miss Leda C. Methot, of 20 Butter-fleid street left Lowell Sunday for Montreal, where she will spend the next four weeks with her sister, Mrs. Grace Methot Trengove, formerly of this city.

Wanrs to Know About Soldiers' Pensions

Mr. James W. Barker, who has been with Mr. F. E. Nelson since the open-ing of the Colonial department stope in this city, and manager of the basement WASHINGTON, Jan. 6.—While resolutions for the purpose of obtaining information concerning high prices of food products were being placed before the senate yesterday. Senator Scott said he wanted to ascertain the number of soldiers of the Civil war who were deprived of an opportunity to be placed upon the pension rolls so that they might get money to buy this food with. He said he wanted to know how many, of these veterans were destitute. "Sixteen senators were in that great department, has accepted a position as manager of the Green Bros. 5 and 10 cent store, this city. The Ponics held a meeting in their rooms Sunday afternoon to make arrangements for their coming dance. After the meeting refreshments were served and solos were given by the Punics quartet, consisting of Messrs. Donin, Frappler, Tarpey and Rourke. Mr. Conner gave recitations.

of these veterans were destitute.
"Sixtoen senators were in that great war," said Mr. Scott. "Seven were confederates and nine were in the union army. Younger men now coming into the senate, I fear, will not be interested in the old soldiers and I want to see what can be done to help them while we older senators are still here."

Mr. Scott introduced a resolution in-

Mr. Scott introduced a resolution in quiring of the secretary of war, how many veterans are still unpensioned. The resolutions were referred to the committee on military affairs.

Were Caught in a Terrible Blizzard

HALIFAX, N. S., Jan. 6.—Several of the fishing boats manned by fishermen from Canso, Whitehead and Dover made shore this morning after a terrible experience in the bilizzard which blew them off shore on Tuesday. It was believed touldy that there would be little if any loss of life among the fishermen. Those who reached shore today repaired sightling other fishermen safe yeslerday while it was sail that the craws of two boats have born picked up at sea by a steamer bound for Hallfax.

Improve the Springfield banks awaiting a decision of the question. According to the state law the fees should be turned over to the county that there sould be turned over to the naturalization bureau of the federal government and the other half to go to the eleck of the court after deducting the expenses, Dist. Atty. S. S. Taft will conduct the case for the plaintiffs and Dist. Atty. Asa P. French of Boston will appear for the defendant.

COOK HAD TWO WIVES JANE

A Nervous Wreck, Says Laws of China Allowed Reputed to be Improved Mrs. Dudley it, Says Lem

NEW YORK, Jan. 6 .- Another member of the Cook family-this time Mrs. Josephine Dudley, a sister of the discredited explorer's wife, made a state Mrs. Dudley says that Dr. Cook is a aervous wreck, unable to think consecutively and that the reason he remains In hiding is that he could not stand the

"that he will soon recover, so that he may come forward and defend himself

plained that he married Bow Kum in within a few days. San Francisco at the Chinese mission. San Francisco at the Chinese mission. Then he came east, leaving word that if business here was good, he would send for her. Business must have been good, for Bow Kum followed him. He pald her rent here, he said, but they lived apart. Under cross-examination, he was unable to exclaim these here. he was unable to explain where he got his money.

his money.

Bow kum had not been here long when her "China law" husband received a visit from two men he had never seen before. They were the prisoners now on trial, and they asked \$3000 in behalf of the Four Brothers society. Chin testified, in payment for Bow Kum, who in San Francisco belonged to Lau Hau Dong, a member of the society. the society.

the society.

Chin refused to pay. He had taken the girl from the mission, he said not from the society; she had followed him of her own free will and he owed no one for her. The murder soon followed. Other witnesses corroborated Chin.

Relative to Fees For Naturalization

SPRINGFIELD, Jan. 5 .- The validity of the Mussuchusetts statutes relative to the disposition of the fees for na-turalizations will be put to the test in this city as a result of a suit entered superior court by Dist. Atty. S. S. Taft on behalf of the inhabitants of

That on behalf of the inhabitants of the county of Hampden vs. Robert O. Morris, clerk of superior court, in action of contract to recover \$1106.85 alleged by the plaintiffs to be due the county for naturalization fees.

The amount sought represents the total amount collected by Clerk Morris for naturalizations since Sept. 26, 1906, when the new state law went into effect. Attorners differ regarding the interpretation of this law and Mr. Morris has agreed with the county officials to have a test case made of it. The action is of a friendly nature, the money having heen kept on deposit in one of the Springfield banks awaiting a decision of the question.

According to the state law the fees should be turned over to the county treasurer after deducting expenses. The law specifies that one-half the fees shall be turned over to the naturalization of the following expenses.

GRANITEVILLE

The Lowell & Fitching Street Ruil. hives, pimples, blotches, tetter, itch, way company is petitioning for the acue, herpes, scaly skin, rush, psoriasis, right to transfer express over its ringworm, chafings, cruptions, sores, road, and the idea meets with popular scales, itching piles, secrey, etc. Large lar favor in this village.

in Health

NEW YORK, Jan. 6.-Chin Lem told Lawyer James Stuart Murphy, of the jury yesterday how he found his this city, who was counsel for Jane sweetheart, Bow Kum, lying in a pool Toppan, who it is alleged poisoned of blood on the floor of her sleeping some 31 persons, is in receipt of a

of blood on the floor of her sleeping room in New York's Chinatown, the letter from Dr. Arthur V. Goss, superside, Lau Tang and Lau Shang, members of the Four Brothers society, are on trial for the murder, which was committed last August.

Chin Is an American-born Chinaman, and a member of the On Leong Tong, Although he has spent only eight months of his life in China, he testified that he has a wife there. His English was so insufficient that he replied to all questions through an interpreter, Chin testified for the state. Chin testified for the state, "If you have a wife in China, didn't you know," he was asked, "that you couldn't marry Bow Kum under American laws?"

"If you under China laws," answered Chin.

It was under "China laws" he explained that he married Bow Kum in Son Ergotem at the Chinage mission.

Estimates U. S. Population as 89,844,000

WASHINGTON, Jan. 6.—Thirty-four dollars and eighty-three cents is what every man, woman and child in the United States ought to have if the \$3,122,154,538 which is in circulation were equally divided among them. That is the statement made by the treasury department on the basis of an estimated population of \$9,844,000. The lotal amount of money in circulation is about \$30,000,000 more then a

tion is about \$30,000,000 more than a year ago at this time.

THE MADONNA FLOATED

THE MADONNA FLOATED

NEW YORK, Jan. 6.—Efforts to
float the steamer Madonna which went
aground in the harbor last night, were
successful early today. The Madonna
of the Cyprien, Fairre & Co. line was
bound for Marseilles when she struck
the shoal in the upper bay off Bay
Ridge that held her fast. On being released this morning, instead of proceeding out to sea she steamed over
to the quarantine station and anchored
there.

There were no cabin passengers on the Madonna.

A Chemist's Discovery

NEW REMEDY FOR ECZEMA AND OTHER SKIN TROUBLES

The most remarkable feature about The most remarkable feature about Cadum, the new remedy for skin discusses, is that its beneficial action is seen in every case where it is applied. Not a single instance has been found where it failed to allay the terrible itching of eezema at once. People who have been afflicted with eezema for years and have tried everything without being relieved should take fresh courage, for the new remedy Cadum is different from anything else. It is the discovery of a chelnist, who felt for years that the world needed a cure for eezema and other skin diseases, and as ezema and other skin diseases, and as erzema and other skin diseases, and as a result of his studies and experiments Cadum was the outcome. While possessing such remarkable powers in overceming different forms of skin troubles. Cadum contains no dangerous ingredients. When applied over unsightly sores on the face and hands, it forms a thin almost turisible continu forms a thin, almost invisible coating so that the disease is covered up while the healing process is going on. The loc. size is intended for trial purposes by those who wish to test its wonder-ful virtues in skin troubles such as

CITY TRUST COMPANY

Boston Arranges for City's Temporary Loan

loan in anticipation of taxes was read at the city council meeting Monday afternoon it was noted that the City Trust company of Boston was named, and it was believed by some that that company would make the lean and that no proposals would be asked for.

Not until last year did the city of Lowell do business through the City Trust company of Boston. The plan to borrow through this company has been adopted by several towns and cities throughout the state, and is done as a matter of writester.

Certify that the legality of their issue has been approved by Mesers, Stoney, Thornoldke, Palmer & Thayer of Boston. Mass, a copy of whose opinion will active the notes when delivered without charge to the purchaser.

All tegal appears incident to the size will be ready for delivery of an anything the field with the City Trust company of Boston. The plan to borrow through this company has been adopted by several towns and cities throughout the state, and is done as a matter of writestant.

at the city council meeting Monday afternoon it was noted that the City Trust company of Boston was named, and it was believed by some that that company would make the lean and that no proposals would be asked for.

Not until last year did the city of Lowell do business through the City Trust company of Boston. The plan to borrow through this company has been adopted by several towns and cities throughout the state, and is done as a matter of protection. The company secures the city against loss in the process of borrowing and for its services the company sharkes 1-20 of 1 per cent. The company's bill against the city for last year's services was about \$1000.

All proposals for loans are sent out from the office of the company in Boston. Notices are sent to the bankers and brokers. The following, a notice of last year, will serve to explain the form used by the company:

Lowell, Massachusetts.

Loan In Anticipation of Taxen

The city of Lowell, Massachusetts.

Loan in Anticipation of the following notes in anticipation of the following notes in anticipation of taxes:

\$100,000 due November 9th, 1909, pay-she at maturity at the office of the content of the part of

Mayor Mechan went to Boston today upon official invitation to attend the state inauguration.

The board of health will meel Friday afternoon, and it is expected that the American Hide and Leather company may have something new to offer relative to its new beam house.

Marriage Intentions

Joseph Hebert, Jr. (widowed), 35. grocer, 99 White street, and Josephine Chouinard, 34, at home, 161 Avon

BOTH

Philip Boudreau and Joseph Beauregard, who were arrested by Inspector John A. Walsh and Patrolman Matthew McCann in this city during the early part of Docember, have been indicted by the grand jury which closed its sitting at Manchester, N. H., yesterday afternoon. It is alleged that Boudreau and Beauregard broke into a store in Wilton, N. H., during the latter part of November and stole large quantities of clothing and gentlemen's furnishings.

Died at His Home in Boston Today

BOSTON, Jan. 6.—Right Rev. John Brady, auxiliary bishop of the Roman Catholic archdiocese of Boston and tit-ular bishop of Alabanda, died at his residence in this city today. Death fol-lowed a paralytic shock suffered re-

residence in this city today. Death followed a paralytic shock suffered recently.

Bishop Brady was born in County Cavan, Ireland, in 1842. He was educated at All Hallows college, Ireland, and was ordained priest in 1864. He immediately came to America and the same year was appointed assistant pastor of Newburyport, Mass. Four years to of Newburyport, Mass. Four years ate of St. Joseph's church, Amesbury, Milliams of many episoopal labors, Fr. Brady in 1891 was appointed auxiliary bishop of Boston and was consecrated titular bishop of Alabanda. His activities were then transferred to this city where he continued parocalial work at a Boston.

of Company C.

Inducted

The annual meeting of Company C, Sixth regiment, M. V. M., was held last evening at the Armory on Westford street. Captain Gardner W. Pearson was in command and a large attendance of members was present. During the evening an inspection of the company was held by Major Sweetsir of the Sixth regiment, after which the members retired to the assembly toom where a business session of the affairs of the past year was held. Reports of the various standing committees were read and showed the company to be in a prosperious condition. Captain Pearson reported that the stereopticon lecture to be given by Lieut, Col. Willis W. Serve 1964. Incorrect M. Magnolias, Prescott, Fri. Kittredge's. Fon reported that the stereopticon tecture to be given by Lieut, Col. Willis W. Stover, Fifth Infantry, M. V. M. would take place at the armory on next Wednesday evening and he invited the members and their friends to be present on that evening. After the meeting the members retired to the hanquethall and partook of a supper. During the evening the following musical program was carried out: phonograph selections by the Columbia Phonograph Co.; song, Musician Chester Cornock: recitation, Private Beaudreau; song, Private Burns; quartet, selections by Privates, Burns, Doberty, Signer and Corporal Crowe.

BOTH INDICTED GOVERNOR DRAPER CORPORATION TAX BILL

Presented ' Legislature Rep. Barlow

New Measure Provides That All of the Corporation Tax Shall Paid to the Cities and Towns in Which the Plants of the Corporations Are Located-Will Mean Thousands of Dollars to This City Annually

BOSTON, Jun. C.—That symbol of known business men and a brilliantly Massachuusetts industrial stability, the sarbed governor's staff crowded the "sacred codish" looked down today area in front of the speaker's guest, from his swinging heights in the house while the galleries held hundreds of representatives upon the 18th inaugural ceremonles held in the Old Bay state and the second induction into office of Gov. Epen S. Draper and Lieut. Gov. Louis A. Frothingham. Ceremonies as ancient and as time honored as the emblem were carried out in every design that save the oaths of olice and on both occaration of his inaugural address. It was a distinguished gathering that save this strict observance of the requirements of the state law.

The great and goneral court which began its annual session restready by sanctioning today's proceedings, sat in New Hampshire and three members slately rows, Judges of the state courts brought a touch of the ermine, party were also present, John L. Bates and Curtis Guild, Jr. Sanction of the state staff. Third former governors because of departments, well ett, John L. Bates and Curtis Guild, Jr. Sanction of the state staff.

REP. ERSON BARLOW.

Rep. Erson B. Earlow of this city has made seed his ante-compaign promise to introduce into the legislature a bill providing that henceforth all of the tax collected of each domestic business corporations shall be paid into the city or town in which the corporation does business corporations shall be paid into the city or town in which the corporation does business, or rather in which the plant of the corporation is located.

Section 61. No naves shall be astacked in a city or town for state, as sessed in a city or town for state, or the corporation of the draft of the bill and was multerally. Thomas G. Robbins of this cit. The corporation of the first of any kind received by the clerk. As to first of any kind received by the clerk. As to day is inauguration day, no bills will reach the legislature but it is probably from the plants were located, while three-quarters went to the cities and towns in which the plants were located, while three-quarters went to the cities and towns in which the struggling cities of Lowell. Lawrence, Fall River, New Bedford, etc., in which these great corporation does not be succeeded by the corporation and trust companies, as corpsponds to the proporation does not be succeeded by the corporation and trust companies as corporation, street and forty-three, except domestic business capporated to the corporation of money in corporation and trust companies, as corporation of the corporation of money in corporation and the corporation of money in corporation and the corporation of the corpor

forty-three and forty-four as corre-sponds to the proportion of its line constructed on private land shall be distributed, credited and paid as above provided. Such proportion of the tax collected from any such electric railing company under the provision of sections forty-three and forty-four, as corresponds to the proportion of its line located longitudinally upon public ways and places, shall be distributed, credited and paid to the several cities and towns in proportion to the length of tracks operated by such company in such cities and towns respectively. The fax collected of each street railway company under the provision of section forty-three and forty-four shall be apportioned among the several cities and towns in proportion to the length of tracks operated by such companies in said cities and towns respectively.

The share of the tax paid by a street railway or an electric railroad company in respect to its tracks upon location granted by the board of metropolitan park commissioners or by the Wachusett mountain state reservation commission shall be apportioned to the commonwealth and shall be credited by the treasurer and receiver general to the shaking fund of the loan to which the expenditure for the road, boulevard, park or reservation in which the tracks are located was changed. Such proportion of the tax structed on private land shall be distributed, credited and paid as provided. Such proportion of t

The trustees of the New Bedford Textile school, at the annual meeting this week, voted to ask the legislature of 1910 for an additional appropriauniversity as a special student, addition to the institution, on the recently acquired W. C. Vaughan land north of the present structure, and also to ask the city of New Bedford to appropriate \$10,000, an increase \$3000 over the usual amount of the citys share.

matter being feft to the executive committee to decide, with power to ascertain the needs of the school. The exact amount to be asked of the the coming year. The usual state appropriation for the school is \$18,000.

President William E. Hatch sald recently that the increase of mill population which will come here following the completion of the new mills now building will probably increase the evening attendance at the school to fully 1000 within two years, and something must be done to prepare for this increase. The Vaughan land, on which the addition will be built, has a frontage of 116 feet on Purchase street.

It is proposed to put the chemical department, dye house and machine shop in the new portion of the build-ing when completed, thus leaving enough room in the original structure to extend the carding, spinning, weav-ing and other departments. The trus-tees have a committee now working on tentative plans for the new building.

Big Increase in Attendance

Big Increase in Attendance
There has been a marked increase in the number of evening pupils during the past year, there being an enrolment of 671 at the present time, as compared with 609 a year ago. The number of day pupils has also increased from 40 to 43.

Since the school started the number of day pupils has increased from six or seven to 43, and the evening attendance has more than doubled.
These facts were brought out in

tendance has more than doubled.

These facts were brought out in the report of Principal Henry M. Nichols, who said that the big increase in attendance has necessitated the employment of two additional evening instructors, besides requiring more work by the original instructors.

During the year, Principal Nichols reported, textile machinery firms have donated to the school machinery to the value of \$6880.75, and there have been many purchases of new equipment.

been many purchases of new equipment.

A new power plant, with a 155 boiler, and 100 kilowatt generator, is now in process of installation.

Since the school was started, the state has contributed machinery and equipment and funds for their maintenance, amounting to \$243,786.15, and machinery firms have contributed machinery forms have contributed machinery to the value of \$60,000. Contributions from the city of New Bedford amounted to \$96,000.

All Officers Re-elected

ed at San Juan

BOSTON, Jan. 6.-Sailing for Norfolk and bringing up at Porto Rico was the experience of the four-masted was the experience of the root schooner Henry W. Cramp. Capt. Nash, which left here Dec. 14. The Nash, which left here Dec. 14. The storm-heaten vessel got into San Juan sesterday morning with part of her sails blown away after having been 💸

driven 1000 miles out of her course, News that the vessel was safe spread rapidly in shipping circles and was comforting information for the owners of other schooners which are long overdue. The Cramp was out longer than the others and the absence of any tidings had led to the

belief that she had met with disaster.

She ran through a dozen terrific gules and hurricanes and was driven back and forth on the coast. The hast safe that hit her sent her reding off to the southwest. Her forecall, mizzensail and spanker were blown away and she was raked from stem to stem. Capit, Nash sent a brief cablegaam to the owners in this city announcing the arrival of the schooler and adding that sails well diarve to be sent so that he could proceed north.

Norfolk is about 500 miles from here, while San Juan is something like 1400 miles nway. Capit, John G. Crowley, the managing owner of the Cramp, has arranged to ship the meeded ralls immediately. belief that she had met with disaster.

Second Cabin, Ginsgow and Derry, 12.56 upwards. Third class, \$27.75 (linsgow) herry, Befrast and Divergoot, Prepaid sterage rate, \$21.56. Entire room reserved for married couples, Childer 12 years, half-fare. H. & A. Altana, 110 State St., Boston.

DENIS MURPHY

18' Appleten Street

The management of the needed radia instrumentally.

Capt. Nash resides in Everett.
It is helieved that the new sixtuants and the schooners of the cars, and the schooners of the const in the same gules and that they will be heard from at some part in the West Indies.

SAVED FROM DEATH

BOSTON, Jan. 6.-Awakened from a | ways and brought her to the street, BOSTON, Jan. 6.—Awakened from a count sumber to find her room filled where she revived. A second early mylch smoke, Merie Evilo, a 19 year old girl living in the tenement block 30-32 Bennett street, south end, yesterday, aroused 40 other men, women and children in the building and then, almost suffocated by the smoke, fell exhausted to the top floor. She was saved from death by the prompt action of Captain Dolau and the men of ladder 17, who made a dash through the burning stair-idea. Was and brought her to the street, coming more acute every day. The gossips have it that patronage is being owns at 4 Burbank street, when Patrolman Thomas Murphy of the East North and her two sons from the building and then, almost suffocated by the smoke, fell exhausted the public antended by the prompt action of Captain Dolau and the men of ladder 17, who made a dash through the burning stair-idea. The loss is \$12,000.

SUPREME COURT SENT Interprets the Child Gonores Found Guilty

Labor Act

BOSTON, Jan. 6. The statute pro-hibiting the employment of children under the age of 14 years is intended. Henry Colburn of Dracut visited a bibling the employment of children to apply to theatrical productions as wall as to work in factories and mercentile catabilishments in the opinion of the full bench of the Massachusetts supreme court in a decision handed donyn yesterday. In the spring, 1909, Frank C. Griffith, a manager, was fined \$50 for employing two children one nine and the other thirteen years of age, in a play that was being produced in a local theatre. The superior court held that the child labor law extended to the theatres, and Griffith carried the case to the supreme court, which sustained the lower court. In its opinion the court holds that the statute covers any employment which involves "constant attention that requires effort of physical or mental strain."

Special Sale

Henry Colburn of Dracut visited a house on the Lawrence road in the vicinity of Kenwood yesterday and succeeded in locating 58 yards of cloth wington mills in Lawrence. William Gonores, who stole the ington mills in Lawrence the the from the Washington mill of lato and Corporation Officer Murphy of Lawrence who was notified of the stealing twick was going on got a clue that Gonores was the third. Inasmuch as Gonores was the third. Inasmuch as quently the Dracut efficers were notified to investigate the matter.

Officer Cullinan secured a search warrant and succeeded in locating the cloth in one of the houses. When the investigate the matter.

Officer Cullinan and Colburn went to Lawrence this morning and testified relative to the finding of the goods.

Your druggist has it—ask him.

CAPI. BARTLETT

Numerous, stéreopticon stides were shown, enabling the audience to better understand the lecture.

Rev. Charles T. Billings, chairman of the lecture committee of the association. Introduced Capt. Bartlett He paid a very high tribute to Capt. Pearry himself got under way, the trial paid a very high tribute to Capt. Pearry and contradicted the stories that Pearry was severe with his men.

He stated that the success of the expedition of Commander Pearry and the man who was to make a try for the pole in the event of anything happening which was due entirely to Capt. Bartlett happening which was decause he had profited by the experience of his previous expeditions was due nabled him to reach the pole on the last expedition. The food supply was sultcient, the sledges were afternight before a large and appreciative audience. The aftair was under the plan of sending men ahead to break and the plan of sending end and the plan of the trail. All went to make his trip association.

Capt. Bartlett spoke well of the matter plan of the trail at some length, illustified the plan of sending end and the plan of sending end to plan of sending end and the plan of sending end and

Smith gave benediction of the Blessed Sacrament with congregational singing by the sodalists. Mrs. Addiade A. Muldoon presided at the organ. At the business meeting after the spiritual meeting it was voted to have a social in the school hall for the members of the society on Thursday evening, Jan. 20. Next Sunday morning after the 9 o'clock mass the consulters will meet in the lower church with the will meet in the lower church with the officers to make out a program for that evening's entertainment.

Attended Reception to Rev. and Mrs. Ferrin

were tendered a New Year recention at High Street Congregational church last night. The reception was from \$ to 10

THE LOWELL SUN

JOHN H. HARRINGTON, Proprietor

SUN BUILDING, MERRIMACK SQUARE, LOWELL, MASS. Member of the Associated Press

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1909 was

16,828

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilotte, pressman, of The Sun, before me, Japuary 1, 1910. J. JOSEPH HENNESSY, Notary Public.

This is by far the largest average circulation of any newspaper in Lowell.

A woman who says she and her family are in want has written The Sun telling her circumstances, but she has failed to give either name or address. People in such circumstances should consult some member of the classity board or call at the office of that body.

HAVERHILL'S CONFIDENCE OF SUCCESS.

The city government of Haverhill seems to be the most confident of all that inaugurated officials last Monday. It seems that the government by commission under the new charter has thus far been a complete success. The chief officials assert that many doors to reckless expenditure have been closed and that the city will always get full value for its money on every dollar expended. The charter is now as yet and it is safe to say that none but the best men have been allowed to hold office under its provisions. With men of a different character in charge a very different state of affairs

THE FINGER PRINT SYSTEM.

The efficiency of the finger print system in the identification of criminals was well illustrated the other day in the detection of two French soldiers who killed Mme. Gouin, a prominent French lady, while riding on a train near Paris. The woman's body was found under the train and the clue which led to the detection of the soldiers was the bloody thumb print of one of the men on a railroad ticket given the conductor. This is but another proof of the value of the finger print system in the identification of criminals or others and its great assistance to detectives and police departments in general.

TO INVESTIGATE HIGH PRICES.

The department of agriculture is to investigate the high prices of food. The agents of the department seem to behave that the farmers are not getting a fair share of the profit from the high prices, and that either the middle man or the retailer is reaping the principal benefit from the high prices. There is little room for doubt that speculators and trusts are responsible for the very high price of farm produce. It will be interesting to know what conclusion the department of agriculture will reach in the matter. There is certainly need of a movement to expose the agencies responsible for putting up the cost of living to its present high figure. The government, we believe, is largely responsible for the state of affairs on account of the high tariff which shuts out foreign competition and shelters trusts that can stamp out domestic competition. .

MHS. DUFF'S CAMPAIGN CIRCULAR.

The campaign going on in Boston for the school board has its amenities as well as the campaign for the mayoralty. Mrs. Julia E. Duff is quite a figure in the school campaign, and one of the documents she has issued recently has attracted considerable attention. She holds that more time should be given in the primary and grammar schools to reading, writing and arithmetic, to the old fashioned book-learning and to forming habits of accuracy and concentration of thought. She says further, it is time to leave our teachers unhampered and unintimidated and to have efficiency rather than age a test of ability.

One of the features of her campaign circular is the reproduction of a set of examination questions for the papils of the Hancock school in Roston in 1854 or 56 years ago. The list of questions which she prints is certainly far more difficult than would be submitted to any grammar school class at the present time. Indeed it is doubtful if many high school pupils could answer all of them. We shall give two of the most briof as an example:

What is the area of each of the four largest equal circles that can be drawn within the square containing 2116 feet."

If the centres of the several sides of a square be the extremities

of the diagonals of an inscribed square whose area is 625 inches what is the area of that part of the former square cut off by one side of the latter?

If Mrs. Duff submitted the examination paper of 1854 to the grammar school papils of today the percentage attained, we believe, would be less than 25 percent. Her argument for more attention to the essential branches should appeal to the common sense of the people. It is one of the greatest needs of the public school system today.

THE DRIVE AGAINST ENGINEER BOWERS.

The common council has apparently some grievance against City Engineer Bowers, judging from the fact that it voted for a different candidate. If there is any charge against Mr. Bowers that could in any way be urged as cause for his removal, it should be made public, but if there be no charge, as we believe there is none, City Engineer Bowers should not be removed simply because somebody else wants the position. Furthermore, if an attempt be made to remove Mr. Bowers for political reasons the demoeratic members of the city council should remember that they are therefore under a double obligation to vote for him.

No new engineer, however capable, could take charge of that department and attain anything like the efficiency shown by Mr. Bowers without years of experience. To place a man in the engineer's office without the familiar technical knowledge which Mr. Bowers possesses of every detail of our sewerage system, water levels, grades and other detail in regard to streets, roads and bridges, emergencies might arise in which the city would suffer heavy loss. The members of the city conneil who vote against Mr. Bowers are not voting for the best interests of the city,

Moreover, as a matter of minicipal gratitude, Mr. Bowers should be retained in the office, because it was through his engineering skill, his foresight and investigations that we came to adopt the incomparable driven well system for the water supply which we enjoy today. The man who was mainly instrumental in giving us one of the best water supplies in the country should receive at least fair treatment at the hands of officials who may not be cognizant of the invaluable service which he has rendered

SCENE FROM "THE CIRCUS MAN" WITH MACLYN ARBUCKLE.

LOWELL OPERA HOUSE

Maclya Arbuckie says the biggest task of his life, and the one requiring the most grif, was the flashlight was set of ske immed, when the most grif, was the flashlight was set the flashlight was set the flashlight was set the flashlight was set to the flash in "The Circus Mian," had her trank from his need. This affectionate norm his need. This affectionate hose is part of the action of the play, and in the performance is one of the big moments of the first act.

On this night the flashlight photographs were taken, Imogene was a triffe nervous, and when the second of the list explosion, and the smell of the powder, and felt the shock of the list explosion, she started to return to the stage, and pose for other pictures, but cach time consented to return to the stage, and pose for other pictures, but cach time consented to return to the stage, and pose for other pictures, but cach time consented to return to the stage, and pose for other pictures, but cach time consented to return to the stage, and pose for other pictures, but cach time consented to return to the stage, and pose for other pictures, but cach time consented to return to the stage, and pose for other pictures, but cach time consented to return to the stage, and pose for other pictures, but cach time consented to return to the stage, and pose for other pictures, but cach time consented to return to the stage, and pose for other pictures, but cach time consented with her trunk around and pose for other pictures, but cach time consented with her trunk around and pose for other pictures, but cach time consented with her trunk around and stage and pose for other pictures, but cach time consented to return to the stage, and pose for other pictures, but cach time consented with her trunk around and pose for other pictures, but cach time consented with her trunk around and pose for other pictures, but cach time consented with her trunk around and pose for other pictures, but cach time consented with her trunk around and pose for other p

the business staff of "The Circus Man" company, left the auditorium, fearing , to see Mr. Arbuckle strangled to death by the elephant in her fright.

"THE GIRL PROM RECTOR'S" "THE GIRL FROM RECTORS"

"The Girl From Rectors" which played for seven months at Weber's Music Hall, New York, holds every record there. Despite the fact the capacity of the house is considered small the receipts during its remarkable run never ran less than \$14,000 a week.

JOHN DREW

nist, when this most dellghtful of all English speaking light comedians will be seen in his newest comedy success, theoastent George," a play in which he recently closed one of the most successful New York engagements of his long career. "ISRAEL,"

"ISRAEL,"

Henri Bernstein's "Israel," which is generally regarded as the biggest dramatic play the stage has seen in a great many years is said to be not only a more than interesting dramatic narrative hir it possesses the action of ideas as well as physical action. The basic principle of the play—the great central idea—is the never threadbare scheme of the conflict believen the Hebrew and the Christian. The play is said to be action action all the time and in the great second act the spectator is carried along as if by a resistless flow. With the complete Manhattan production and the original cast Charles Freiman will present "Israel" at the opera house soon.

HATHAWAY THEATRE

A specially selected combination of acts at Hathaway's theatre this week cannot fail to attract very large audiences. Just the proper mixture of pathox and galety is shown. In the lorner class may be mentioned Homer Lind in his touching little musical play ralled "The Opera Singer," and Eih'l Fuller in "A House of Cards," the Inter strongly dramatic and gripping from the outset. These two plays surely apply the requisite "straight" touch to the bill.

On the lighter side are the Quigley

On the lighter side are the Quigley On the lighter side are the Quigley brothers, who revel in quaint Hibernianisms, and who are in a class by themselves when it comes to their special line of endeavor; Alva Magill, an attractive character singer, and Goff Phillips, a minstrel jester. The Four Casting Dunbars do some thrilling

king, opens the program well. Motion pictures close it.

Performances will be given every afternoon and evening during the remainder of the week with special seats at the matinees for women.

ACADEMY OF MUSIC

At the Academy for the remainder of this week Luken's Troup of per-forming lions have been obtained by the management at great additional expense. When you see Prof. Luken expense. When you see Prof. Luken put his family of great cats through their tricks you will realize the pattence and perseverance, to say nothing of the courage he must have had o accomplish the results shown. Miss Infectic Wood will appear in Inita Sincete wood will speak a mula tions, entirely new motion picture-will be shown, and Miss Claudia Bes sette, the singer of illustrated songs will appear at each performance Prices remain the same as usual. and 10 cents.

THEATRE VOYONS

The Theatre Veyons off is today picture that in subject is most up-to-dute and it has for its plot a story of an airship war, such as only be sen hundreds of years hence. "A Battle it the Clouds" is the title of this remark able picture. The principal scene show a battle in mid-atr with several air-ships in action, also the destruction of a village by fire of the invading air-ships. There are many other pictures on the bill and the songs are well se-lected and flucly sung.

STAR THEATRE

. The Spanish song birds, two elever young women, have one of the most novel-acts ever seen. The singing by both young women is excellent and is warmly applauded. An Oriental sketch s a feature. There are new motion detuces, and illustrated songs. The ulmission of five cents allows a seat.

MATHEW PICTURE PALACE

There will be a change of progenia at the Mathews toulght when only the very latest and losst pictures will be shown to the patrons of this theatre.

Mr. John J. Dalten and Miss Ethel Wentworth when the prisoner waived Knowlton will sing two finely illus-

Fireless Cooker Free to users of Mother's Cereals

These cereals are famous for quality among the housewives of America. Carefully our buyers collect the finest grain in all American markets. They are known as being finicky. Carefully our mills pick from this cream the ripest, choicest grains. Carefully our mill hands pick from these kernels the biggest, the fattest, the finest. Only the best grains ever find their way to a Mother's package. Carefully this product is selected from the select, is cleansed, then sterilized and packed in a Mother's sanitary package. Here is a list of Mother's Cereals. Every one is the best of its kind. Mother's Yellow Corn Meal

Mother's Oats

Not like other oats. Not only rolled to make their cooking easy, but crushed to make them easily digested. Mother's Wheat Hearts (The cream of the wheat)

Is a pure granulated wheat food, thoroughly sterilized and easily digested.

Mother's Corn Flakes (Toasted)

The best corn, big, full, sweet corn, shaved as thin as a whisper and toasted into a rich golden yellow. Mother's Old Fashioned Steel Cut

Thoroughly pan roasted, all of the natural sweetness of the oats retained and makes the best gruel.

The kind from which you can make the corn bread, cakes, mush and Mother's White Corn Meal

Carefully prepared from the finest grains. Delicious for com bread and cakes. The kind dearest to the heart of the southern housewife. Mother's Granulated Hominy

Made from carefully selected white corn, by modern methods of manufacture. A food far superior to the ordinary hominy. Mother's Coarse Pearl Hominy

Made from selected white flint corn of the highest quality. Coarser than Mother's Hominy Grits and requires a little longer in the cooking.

The Mother's Oats Fireless Cooker, given free with coupons found in Mother's Cereals, needs no fuel of any sort. Ask your grocer how you can get one free. If he doesn't keep Mother's cereals, send us his name and yours and we will send you free a useful souvenir.

THE GOVERNOR'S

BOSTON, Jan. 6 .- Gov. Draper in contracts and arrangements for the it being interstate business, the food his inaugural address delivered today

Gentlemen of the General Court of Massachusetts:

In presenting my second message for your consideration, I desire first to thank the people of Massachusetts fdr their renewed expression of confidence in me.

Finances

The net direct debt of the commonwealth of Masaschusetts on Dec. 1, 1909, was \$18,980,755.42. This debt on Dec. 1, 1908, was \$17,669,372.69 During the past year, therefore, the met direct state debt increased \$1,-311,382.73. The net metropolitar debt, or contingent debt, as it is called in the auditor's report, was, on Dec. 1, 1909, \$60,676,311.03. On 1, 1908, this debt was \$60,428,-223.14-so that this debt has increased during the past year \$245, There have been issued during the year, charged to the net state debt for permanent improvements new bonds amounting to \$2,326,300 while bonds have been paid amounting to \$2,552,500. The metropolitan debt was increased by bonds issued for permanent improvements amounting to \$1,643,000, and was decreased by payment of bonds to the amount of \$8000 and a contribution to the sinking fund of \$1,368,912.11.

The receipts from miscellaneous sources of revenue during the year ending Dcc. 1, 1909, were \$7,694,-776.10. The state tax was \$4,500,000, so that the total revenues for the year, exclusive of cash on hand, amounted to \$12,194,776.10. There was paid out for expenses during the year \$12,-822,559.24, so that the cash on hand was quite substantially reduced from Dec. 1, 1908, to Dec. 1, 1909

classes of debt, issued bonds for permanent improvements, but we have not increased either class of debt as much as the amount of such bends. The net debt was, however, in each case greater on the first day of December, 1909, than it was on the first day of December, 1908.

The annual charge for interest on the net direct debt in 1909, reckoned at 31/2 percent, would be something more than \$650,000 a year; while on the metropolitan debt the annual interest charge, which has to be paid by the metropolitan district, at the same rate of 31/2 percent, would be more than \$2,100,000 a year.

I call these matters to your attention, and ask you to seriously consider whether it is not time, in making your appropriations, to provide for a substantial payment each year on the principal of the net direct debt. It also seems to me that it is time that the principal of the metropolitan debt should begin to be decreased, as the annual interest charges are constantly growing larger and becoming a heavier burden.

The expenses of the commonwealth past year because of the greatly increased number of unfortunate people who had to be cared for in our various institutions, and we must expect parts of our whole school system.

necessary, with the finances of the penditure, and certainly no large new undertakings should be started which tion as one of its principal and comare not absolutely necessary, except those which are for the proper care

uon as one of ponent parts. of our sick and unfortunate.

Municipal Accounting and Registration of Municipal Loans

The bureau of statistics is doing a with municipal accounting reform. It is a legitimate function of the commonwealth to assist its municipalities, and especially the towns, in devising and also a reasonable increase in the in 1907, and on Nov. 30, 1907, the methods by which their affairs can be; salary of the state librarian. better administered to their own advantage, and it is highly desirable that It should do so in the interest of all our citizens and of investors in numbcipal securities.

The very unfortunate occurrences which came to light during the past year in connection with the finances of the town of Framingham have brought forcibly to the attention of the people the necessity for some reform in the method of issuing municipal

I suggest that some plan be adopted requiring the registration and certhication in the office of the bureau of statistics, of all town and city loans,

There are many people interested in this subject who have suggested various methods by variet this can be some, and I submit the general subjest to your aftention, with an earnest request for prompt and wise action.

Interest on War Loans

It has been called to my attention that there are certain equitable claims for reimbursement of gold premium and interest charges paid by the commonwealth on its war loans, which the federal government may properly be asked to pay, after onabling legislafion has been enacted at Washington. The sum at issue is a large one, amounting to more than a million dol-

At the present time there is no au-

presentation of these claims. Under commonwealth on its war loans." take action, in order to give the governor and council authority to make proper arrangements to prosecute I am satisfied that the government in these claims. I therefore recommend spection is scientific and adequate. that such action be taken. Education

The reorganized board of education was appointed on the thirtleth day of first day of July. The members have necessarily had little chance to do anything up to the present time except to familiarize themselves with present conditions and engage a commissioner of education. As the old commission on industrial education and its officials went out of office when the new board came in, the members of the new board were themselves obliged to devote a great deal of time and attention to the ordinary routine work which was required until they could decide on a commissioner of education and get the new board thoroughly organized. They have now engaged their commissioner, and are carefully studying the questions which come within their province, especially the matter of industrial education, and bow best to adapt it to our present school system.

They find that the statutes under which industrial schools may be and We have in the last year, in both have been established are not clear; and, because of this lack of clearness, many questions have arisen in the past, under the commission on industrial education, in regard to socalled independent industrial schools. which need to be settled and which can be cleared up only by new legislation. The board of education will ask for such action as it deems neces sary, and will explain in detail the reasons therefor and what it desires to accomplish.

> This question of industrial education and how it shall be worked in harmony with, and very likely become a part of .. our public school system . is a great one . . The board has not had time as yet to properly study out and formulate a definite policy. It is not desirable that the commonwealth should rush Into. this, matter, haphazard, and without careful consideration and a definite plan

We have an able board of educa tion, which is earnestly devoted to its duties, and during the present year it will have time to, and will, foring late definite plans as to what should. be done for the real advancement of this important work. In the meanwere materially enlarged during the and bad judgment to create separate and individual schools for industrial education which would not be integral

this to be larger in the future. This board, and legislation will be requesttion in making your appropriations for deemed proper; but it will, after the passage of new legislation, require commonwealth in their present condition, to practice economy in every ex-

room has been given to the state library, and the trustees and the librarian are planning to use this space for legislative reference work. large amount of work in connection This will necessitate the employment of an assistant in this department, and I recommend an appropriation sufficient to meet this extra expense.

Free Public Library Commission

This commission has done excellent work for many years, and the people of every town in the commonwealth ning of 1999 than there were at the now have the opportunity to obtain books from a free public library. It is not desirable that the towns should Massachusetts is not an industry that have too much state assistance in is growing, but one that is declining. the commission should be given more commonwealth. As the consumption commission should be somewhat inwork and visiting the various libraries throughout the commonwealth.

Meat Inspection During the last year much interest was taken in and attention given to the improving of conditions under farmers of this commonwealth can which meat, to be sold for food to the people, should be slaughtered and agency of the railroads, rather than prepared for sale. There was a feel- be obliged to deal through contractors ing that meat infected with the germs who practically handle the shipping of disease might be sold as food; and of milk for the railroads. Whether the fear that such conditions existed or not this would result in cheaper caused the legislature to pass laws intended to prevent the sale of infected meat, and also to order an inquiry by the state board of health into the methods of slaughtering, in Massachusetts, of animals to be used for

Of all the animal feed products consumed in this commonwealth, a thority in law which would allow the very large percentage is brought in governor and council to make proper from other states. In these cases, conditions. The railroad should re-

products must be inspected by offisection 79 of chapter 6 of the revised cers of the United States stationed in laws, the governor, with the advice the slaughter-houses where the aniand consent of the council, is given mais are killed, and these animals authority to make contracts to collect and carcasses are examined thoroughmoneys due the commonwealth of ly, by trained mon, before and after Massachusetts, "except any claim for being slaughtered. If there is anyrolmbursement of loterest paid by the thing which renders meat unfit for food, it is seen by these inspectors These claims to which I have referred and the carcass is destroyed; and only are in part for "interest paid by the meat which is fit for food is permitted ing t commonwealth on its war loans," and to be shipped from one state to an pear. it is necessary for the legislature to other or to other countries. I have personally looked into this examination in various slaughter-houses, and This applies to the great bulk of the animal food products, consumed by the neaple of this commonwealth,

The local conditions which are permy opinion, good. The slaughtertions of the commonwealth do not which and it is inadequate.

should be effected, so that the commonwealth may be divided into districts, baving expert inspectors who very severe and disagreeable weather. shall superintend all the conditions under which animals for food are slaughtered, and who shall also ex- property of our citizens by the officers amine the carcasses to see that they and men was almost negligible. are in proper healthful condition to be sold for food

The appointment by the commonwealth of a given number of such inspectors to look after these conditions would cost considerable; but people would be better protected from which they use for food, the extra expense, although quite an item, should much of it would be saved directly to the towns and cities, as they would be relieved of that which they now have to incur for inspection.

I recommend that careful consideration of this subject be given, and that action be taken so that all these conditions may be improved and a new lished; and I suggest that the standard of inspection be made the same as which is the best; and I urge prompt a proper law be passed to bring about fective automobile law of any state. aries, and be required to give more in the best possible manner at short and wise action in dealing with this this result. most important question.

Milk Conditions

The production of milk and the way it shall be sold is a problem which sceins very difficult to solve satisfactorlly to both the producers and consumers. There has been much discussion as to whether the standard of milk solids and 3.35 percent of fat, is right. I do not protend to express an opinion based on knowledge in this respect, but I have not been able to see any way in which the consumer and the honest producer of milk can be properly protected, unless a standard of quality shall be established and maintained by law.

While I thoroughly believe in ducers, because milk from other states; now ninety inmates. can be sold in Massachusetts under many less restrictions than is the case

reason the number of neat cattle in the commonwealth of Massachusetts is decreasing. In the year 1908 there record showed a decrease of nearly 10,000 from the previous year, so that there were 13,000 head of neal cattle less in Massachusetts at the beginend of 1906. This proves conclusively that the keeping of cattle for milk in not profitable for the farmer to raise patients. and sell milk under existing conditions.

I believe that the legislature should pass laws, if necessary, so that the ship their milk through the direct be obliged to deal through contractors milk to the consumer, I do not know; but I do not believe it wise for the great carrying agencies operating in the commonwealth of Massachuselts to sublot these prlyfleges to any one.

Every man who desires to ship milk removed and stored every day. to the cities of this commonwealth over the railroads of the state should have the right to deal with them directly, under proper regulations and like 300 patients for the coming year. lation.

ceive proper pay for the service rend- | in our minds this year, we ought to | improvements in railroad properties ered, and should not be obliged to tako milk at every station; but proper provisions should be made so that milk delivered in reasonable quantities at particular points should be carried by the railroads at reasonable rates to the large centers of population where it is to be consumed. lieve if this were done many of the complaints which now exist concerning the milk question would disup-

Military Matters The militia is in excellent condition. The maneuvers which were held during the past summer were most beneficial and advantageous. All the conditions of actual service in war time were present except the terrible carnage which results from actual conflict. Our troops were ordered to June, 1909, to take office on the the mitted to exist in this state are not, in mobilize on a given day at given points, ready for service. houses are not properly kept, and proved a severe test of the commisinspection is not sufficiently careful, and cavalry, arrived at the designated points on time and in good condition. am glad to say that the material conditions in the commonwealth and the 1998. The great crops of the west have been bountiful, and the prices of which they have sold have been high. The cotton crop of the south is probably less than usual, but the farmers who raised it have received such good prices for their product that they are prosperous. The manufacturing industries in all lines are busy, and the people are employed at good wages. The whole nation is prosperous. As a people, however, we are not

economical; we are unnecessarily wasting our natural resources, and extravagance has become a habit. The price of everything is high, and this ought to put a premium on economy. This is not a proper time or place to discuss the reasons for these high prices, but it is well known that the enormous increase in the production of gold and the higher wages paid in every vocation of life must be two of the great contributory causes.

In spite of these high prices, Massachuseits has been extremely prosperous and our savings banks have shown the largest increase in denos-Under these conditions, it will be great benefit to Masaschusetts and its of any year in our listory, the tonecessary for you to make appropria- New England, and these owners tal increase being \$33.581,751, makfug the total amount of deposits now on hand in our savings banks \$743,

the depositors in our savings banks during the past year have amounted to \$27,110,047. The deposits put in these banks in 1909 were about \$16.-000,000 more than in 1903, while the withdrawals of deposits in 1909 were \$15,000,000 less than in 1908,

The above shows in a most graphic manner the tremendous change in conditions which has taken place in the last year. Notwithstanding the prevailing high prices, our people have saved money, and this means presperity.

You, as the representatives of the people, have a sacred trust imposed upon you. It is your duty to see that the resources of the commonwealth shall not be wasted, and that the money of its citizens shall be wisely. and properly expended. The legislatures of the past in Massachusetts have established a great record for the enactment of laws which have Your immediate prodecessors maintained the high standard which had been set for them. I have no doubt that you will do equally well, and I promise to use my best endeavors to co-operate with you in accomplishing good results.

New Mission in Market Street Dedicated

A chapel for the benefit of the Greek, Syrian, Portuguese and Armenian residents of the city was opened at 307 Markel street last night. The chapel, which will be known as Pilgrim chapel, was firted up by the First Trinitarian church, and the rent is to be paid by the State Missionary society...

The dedicatory services began at 7.30 o'clock. Rev. Stephen Vaitses presid-

dresses were Rev. F. E. Emrich, D. D., secretary of the Massachusetts Home Missionery society: Rev. Geo. F. Kenngoit, paster of the First Trinitarian church: Rev. J. M. Kyle, D. D., pastor to the Portuguese; Rev. Abodis Garabedian, paster to the Armenians; and Mr. Drew of Boston, one of the directors of the State Missionary society. There was singing by the audience, Miss Mahel Cragin presiding at the

organ.

Services will be held at follows:

For Greeks—Sundays, 41 a.m., Sunday school at 12 m.; mothers' meeting,

Wednesday afternoons: prayer meetings. Wednesday evenings at 7.30; sewing class for girls. Saturday afternoons

oons. For Armenians—Tuesday and Thursday evenings: Sunday services being held at the Y. M. C. A. rooms Sunday

For Portuguese—Sundays at 7 p. m., Fridays at 7.30 p. m.

To Discuss Peace With Pres. Madriz

MANAGUA, Jan. 6.-Managua is jubilant over the prospects of early peace. President Madriz made public this evening a telegram which he had reserved from General Fornes Diaz, one of the leaders in General Estrada's insurgent army, saying that he was leaving Rama for Managua to discuss the situation with the president. General Diaz's felegram follows:
"The assured of our patriotism and of General Estrada's honorable character, the barding for Managua to extinct the barding for Managua to extin

am leaving for Managua to settle he country's situation with you di-

rectly."
President Madriz also gave out a tolegram, which be has received from General Estrada, in which Generals Gonzeles, Castrillo Comez and other

prisoners are reported as well.

Minister General Baca has issued a decree, fixing 1.000,000 persos, gold, which is equivalent to 9.000,000 paper, as the amount of the ferced war tax.

Zalaya only levied a tax of 2.000,000 paper.

Zalaya only review a war paper,
the quarter of the new tax is to be collected immediately. The decree has caused consternation.
Affinister Bace has explained privately that no offense was intended towards the United States in his speech at the banquet given in bouer of General Irias when he said that the at the banquet given in honor of Gen-oreal frias when he said that the course of the revolutionists was re-ceiving encouragement from some quarters and that the inhabitants of Granada were growling at the feet of minor officers of the United States. Minister Bara protests that he has a great admiration for the United States.

Details of the Great Deal

NEW YORK, Jan. 6 .- Details of the Guaranty-Morton Fifth avenue Trust Co. merger were made public last night after a meeting of the boards of night after a meeting of the boards of directors of the three companies. Among other things a further in-crease was authorized in the capital stock of the Gairanty Trust company as Hallar head, from \$3,000,000 to \$5,-

100,000.
Upon the complision of the inerger, the Guaranty Trust Co, will have a capital stock of \$5,000,000 with surplus, including all undivided profits, of approximately \$21,000,000 and combined deposits of \$126,000,000.

MINISTER MORGAN

FINISHES SERVICE AS AMERICAN

HAVANA, Jun. 6.—The long mission of Edwin V. Morgan, the American minister to Coba, terminated yesterday morning, when he salled for the United States. He left Norval Richardson, second secretary of the legation, as charge d'affaires, Air. Morgan was escorted to the steamer by all the members of the diplomatic corps, representatives of the Cuban government and army, and the most prominent representatives of all the foreign colonies.

Minister Morgan's hast official activas to notify President Comez that the American government had withdrawn its objection to the proposed exchange of the Western Rullway's Villa Nuova station on the Prado for the lands of the arsenal on which the Western and United raflways of Havana, both English companies, will creet a great union terminal. The railways have agreed to unite and form an American Terminal company. HAVANA, Jun. 6.—The long mission f Edwin V. Morgan, the American

Amberola Che nemest EDISON

furniture—a Phonograph with the horn built in as a part of the cabinet.

A trained musician may purchase a piano, simply for the beauty of its tone and the lightness of its action.

The real home maker will purchase for this and more. The instrument purchased must be a delight to the eye as well as to the ear-a part of the home. And that is just "the why of the Amberola"— combining as it does, all the tonal beauty of the Edison Phonograph, with the added richness, simplicity and charm of a masterpiece of cabinet work comparable only to the highest grade piano.

The Amberola comes in several finishes of Mahogany and Oak to harmonize with surroundings in your home. It has drawers in the lower part for holding 120 records. The price

is \$200.00. Hear the Amberola at your dealer's today play both Amberol and Standard Records.

Slezak-And-be sure to ask to hear the new Grand Opera Amberol Records by Slezak—the great tenor of the Metropolitan Opera House, New York, who is the greatest Grand Opera sensation since the days of Jean DeReske.

There are Edison dealers everywhere. Go to the nearest and hear the Edison Phone graph play both Keison Standard and Amberol Records. Get complete catalogs from your dealer or from us. National Phonograph Co., 75 Lakeside Avenue, Orange, N. L.

TO SEEK PARDON ANNUAL SUPPER BADLY And Roll Call at Paw- Joseph J. C.

Pres. Taft Will Be Asked Free Charles W. Morse

ATLANTA, Ga., Jan. 6.—"While I have life I expect to continue the fight to secure the release of my husband," said Mrs. C. W. Morse in an interview yesterday afternoon, "and I expect to win the fight. I am confident that the sympathy of the country is with Mr. The interview occurred in the parlor of the Pledmont hotel. Mrs. Morse came in with W. P. Role. Mrs. Morse came in with the last particles."

The interview occurred in the parlor of the Pledmont hotel. Mrs. Morse came in with W. P. Reid, Mr. Morse's close friend and business associate, who has been fightling hand in hand with Mrs. Morse to secure an acquittal for the financier and who will stay in the game until ha is gotten out of prison, or they are forced to give up in despair. Nothing but force of will has kept Mrs. Morse from going down and out under the strain. Though a handsome woman, the marks of cure and suffering have aged her.

"There is very little I can say," she said. "I shall be here only a few days longer. Mr. Littleton, our lawyer, has decided not to come down until after I see him, which will be just as soon as I get back to New York.

I get back to New York.

decided not to come down until after L see him, which will be just as soon as I get back to New York.

"You may say, however, that a great petition will be sent to President Taff asking him to pardon Mr. Morse. That a great petition will have ever 1.900.600 signatures. I have received over 100 telegrams today urging me to send out a nestition for signatures."

I P. Reid, which has charge of all of his business affairs was to have seen him, bus the room where clothing is made.

The annual church supper, meeting Harriet Jameson, assisted by Mrs. J. P. Fowler, Mrs. A. H. Marshall and Mrs. Norman L. Peavey.

The annual meeting was called to order by the pastor, Rev. F. G. Alger, and

REV. F. G. ALGER.

officers. Mrs. A. M. Horr reported a total of 57 scholars in the primary detotal of 57 scholars in the primary department, exclusive of the kindergarten. Miss Ina McKinley, the secretary, reported the activities of the school during the year and recorded a total of 452 scholars. The treasurer, George B. Tauner, showed the school to be in Tauner, showed the school to De in Tauner showed the school to De i

WASHINGTON, Jan. 6.— With a view of making international arbitration judicial in fact as well as in theory Secretary Knox has addressed a circular note to the powers, proposing that ture of property is illegal.

"The court waste of war, for without war the captustice court, authorized in 1907 by The Hague peace conference, be extended so as to make it a court of arbitral justice.

This note was dated Oct. 18, 1909. No responses have been received. A statement explaining, the contents of the note and the reasons the proposal was made was given out latal night by Sucretary Knox.

The international prize court was to be composed of lifteen judges, eight of whom were to be chosen from the composed of lifteen judges, eight of whom were to be chosen from the larger maritime countries—Germany, Austria-Hungary, France, Great Britani, Haly, Japan and the United States—and they were to serve six years. In his statement Secretary Knox also proposed has and they were to serve six years. In his statement Secretary Knox also proposed that nations confronted with constitutional prise served a tanner, showed the school to be in good financial standing after having good financial standing afte the personal work committee had done

And Roll Call at Paw- Joseph J. Carroll Fell New Bedford to Have Beneath Cars

BOSTON, Jan. 6.-While coupling lay prostrate beneath.

With great presence of mind he kept the City hospital,

TEDDY LEWIS

INJURED

Teddy Lewis, star rusher for the Grays, was given a reception which did his heart good when he arrived at Infantry half last night, and another and a higger one when he left. Lewis is out of the game with a bad foot, but he was able to get down to Infantry half last night in Dutee Flint's automobile, and watched the game from a seat in the balcony. A small crowd of the ever present street gamins recognized him as he bobbled up the stairs on crutches and set up a yell for him. The word was passed around the half that the real Lewis was there, and when he started to come down after the game a large sized crowd had gathered. As he was being helped into the automobile some one yelled, "Tree Teddy Lewis, star rusher for the the antempt is some one yelled, "Tree the stove and demolishing the room cheers for Teddy Lewis!" and they were given with a will. The smile which lighted up the polo star's face showed bow deeply he appreciated the tonor.

Lewis will go to the hospital to have

Low is will go to the hospital to have a slight operation performed on his foot within a day or two. A slight to the clerk of the church, br. J. J. Colton. It was stated in the report that the church debt had been reduced to less than \$400, and that was good news, Resolutions on the death of Ars. Josephine Chase, who left a legacy to the church were read and analysis are providence. Tribune.

sephine Chase, who left a legacy to the church, were read and manimously adopted.

Supt. Norman L. Peavey of the Sunday school made his report through his officers. Mrs. A. W. Herr, reported 2.

COOK HAD TWO WIVES JANE

A Nervous Wreck, Says Mrs. Dudley

NEW YORK, Jan. 6 .- Another member of the Cook family-this time Mrs. Josephine Dudley, a sister of the discredited explorer's wife, made a statement last njghi.

Mrs. Dudley says that Dr. Cook is a nervous wreck, unable to think consec-utively and that the reason he remains in hiding is that he could not stand the strain of further controversy.

"We are praying," says Mr. Dudley, "that he will soon recover, so that he may come forward and defend himself.
Mrs. Cook is at her husband's side. She
loves him and trusts him. There has
heen no quarrel, there never was any
trouble between them about money."
Mrs. Dudley received a message yesterday, she said, from Walter Lonsdale,
Dr. Cook's secretary, dated Copenhagen, and rending as follows:
"Cable Fred's address at once. All
important. Must see him now."
Mrs. Dudley has not answered the
message yet, hecause she fears it may
be a trap. The doctor has had a disheartening collapse, she said, and it is
important that his seclusion shall not may come forward and defend himself

important that his seclusion shall not be disturbed. She says she is aware of the doctor's whereabouts, but will not even specify whether he is in this country or abroad.

Wanrs to Know About, Soldiers' Pensions

WASHINGTON, Jan. 6.—While resolutions for the purpose of obtaining information concerning high prices of food products were being placed before the senate yesterday. Senator Scott said he wanted to ascertain the number of soldiers of the Civil war who were deprived of an opportunity to be placed upon the pension rolls so that they might get money to buy this food with. He said he wanted to know how many of these veterans were destitute. of these veterans were destitute.

"Sixleen senators were in that great war," said Mr. Scott. "Seven were confederates and nine were in the union army. Younger men now coming into the senate, I fear, will not be interested in the old soldiers and I want to see what you be done to be in them, with what can be done to help them while

It was under "China laws" he explained that he married Bow Kum in San Francisco at the Chinese mission. Then he came east, leaving word that if hustness here was good, he would send for her. Business must have been good, for Bow Kum followed him. He maid her reput here, be card, but the

send for her. Business must have been good, for Bow Kun followed him. He had her rent here, he said, but they lived apart. Under cross-examination, he was unable to explain where he got his money.

Bow Kum had not been here long when her "Chine law" husband received a visit from two men he had never seen before. They were the prisoners now on trial, and they asked \$3000 in behalf of the Four Brothers four dellars and eighty-three cents is society. Chin testified, in payment for what every man, weman and child in Bow Kum, who in San Francisco bettle United States ought to have if the saciety.

SPRINGFIELD, Jan. 5.—The validity of the Massachusetts statutes relative there. There were no cabin passengers on the disposition of the fees for natific Madonna.

THE MADONNA FLOATED

NEW YORK, Jan. 6.—Effects to
float the steamer Madonna which went
aground in the harbor last night, were
successful early today. The Madonna
of the Cyprien, Fabre & Co. line was
bound for Marseilles when she struck
the shoal in the upper bay off Day
Ridge that held her first. On being released this morning, Instead of proceeding out to see she steamed over
to the quarantine station and anchored

in the old soldiers and I want to see what can be done to be them while we older senators are still here."

Mr. Scott introduced a resolution inquiring of the secretary of war, how many veterans are still unpensioned. The resolutions were referred to the committee on military affairs.

NEW YORK, Jan. 6.—The Arctle club of America—founded by Dr. Frederick Cook—and his strongest supporter in the North pole controversy, through its board of directors has dropped the name of the Brooklyn explorer from the rolls of the club.

the rolls of the club.

The action of the Arctic club directors last night was unanimous. The club, whose president Rear Admiral Schley is Dr. Cook's staunch supporter, strips from the explorer's breast almost the last vestige of scientific honors, only the degree of doctor of philosophy, conferred by the university of Copen-based resolution.

Other Bishops BOSTON, Jan. 6:—The agitation over the so-called open pulpit canon, which has stirred the Episcopal church since the legislation of the subject was adopted by the general convention at Richmond, Va., in 1907, will be projected in this year's general council, which will be held in Cinclinati. The opponents of the law claim that while it does not permit non-Episcopallans to occupy the pulpits of the church, many clergymen have interpreted it to mean that ministers of other flenominations are allowed to address Episcopal congregations.

YOUNG PRODIGY TEXTILE SCHOOL

Addressed the Harvard New Bedford Institution Mathematical Club

CAMBRIDGE, Jan. 6,-William J. ments enabled him to enter Harvard university as a special student, adclub last night upon the subject of "Four Dimensional Bodies." This is one of the deepest and most involved of the courses in higher mathematics.

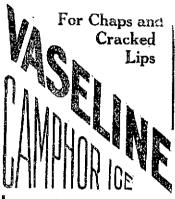

For over two hours the boy student entertained a hundred students and professors with his resume of the various theorems concerning four dimensional budies, his expositions being declared most clearly presented and

Sidis of Brookline, the 11 year old Textile school, at the annual meeting prodigy, whose intellectual attain this week, voted to ask the legislature of 1910 for an additional appropriadressed the Harvard Mathematical dition to the institution, on the retion for the purpose of erecting an addition to the institution, on the re-cently acquired W. C. Vaughan land north of the present structure, and also to ask, the city of New Bedford to appropriate \$10,000, an increase of \$3000 over the usual amount of the citys share.

The exact amount to be asked of the The exact amount to be asked of the state has not yet been determined, this matter being left to the executive committee to decide, with power to ascertain the needs of the school for the coming year. The usual state appropriation for the school is \$18,000.

President Willam E. Hatch said recently that the increase of mill population which will come here following the completion of the new mills now building will probably increase the evening attendance at the school to fully 1000 within two years, and something must be done to prepare for this increase. The Vaughan land, on which he addition will be built, has a frontage of 116 feet on Purchase street.

It is proposed to put the chemical department, due house and machine shop in the new portion of the building when completed, thus leaving enough room in the original structure to extend the carding, spinning, weaving and other departments. The trustees have a committee new working on tentative plans for the new building.

Big Increase in Attendance There has been a marked increase

There has been a marked increase in the number of evening pupils during the past year, there being an entolinent of 611 at the present time, as compared with 509 a year ago. The number of day pupils has also increased from 40 to 43.

Since the school started the number of day pupils has increased from six or seven to 43, and the evening attendance has more than doubled. These facts were brought out in the report of Principal Henry M. Nichols, who said that the big increase in attendance has necessitated the employment of two additional evening instructors, besides requiring more work by the original instructors.

During the year, Principal Nichols reported, textile machinery firms have donated to the school machinery to the value of \$6800.75, and there have been many purchases of new equipment.

A new power plant, with a 155 boil-

ment.

A new power plant, with a 155 boiler, and 100 kilowatt generator, is now
in process of installation.

Since the school was started, the
state has contributed machinery and
equipment and funds for their maintenance, amounting to \$243,786.15, and
machinery firms have contributed
machinery to the value of \$60,000. Contributions from the city of New Redributions from the city of New Bedford amounted to \$96,000.

All Officers Re-clected

Boston Schooner Landed at San Juan

BOSTON, Jan. 6.—Sailing for Nor-folk and bringing up at Portu Rico was the experience of the four-masted schooner Henry W. Cramp, Capt. Nash, which left here Dec. 14. The storm-beaten vessel get into San Juan yesterday morning with part of her sails blown away after having been 💸 driven 1000 miles out of her course.

News that the vessel was safe spread rapidly in shipping circles and was comforting information for the owners of other schooners which are long overdue. The Cramp was out longer than the others and the absence of any tidings had led to the belief that she had met with disaster.

belief that she had met with disaster.

She ran through a dozen terrific gales and hurricanes and was driven back and forth on the coast. The last gale that hit her sent her recling off to the southwest. Her foresail, mizzensail and spanker were blown away and she was raked from stem to stern. Capt. Nash sent a brief cablegram to the owners in this city announcing the arrival of the schooner and adding that sails would have to be sent so that he could proceed north.

Norfolk is about 500 mites from here, while San Juan is something like 1400 miles away. Capt. John G. Crowley, the managing owner of the Cramp, has arranged to ship the needed sails immediately.

arranged to ship the needed sails immediately.
Capt, Nush resides in Everett.
It is believed that the new sixmaster Wyoming and the schoeners Grace A. Martin and Lewiston, which are also long overdue, were driven off the coast in the same gales and that they will be heard from at some port in the West Indies.

NIGHT EDITION

CITY TRUST COMPANY

Boston Arranges for City's Temporary Loan

When the order for the customary loan in anticipation of taxes was read at the city council meeting Monday afternoon it was noted that the City Thorndlike, Painer & Thayer of Boston, Mass., a cony of whose opinion will accompany of Boston was mandal and it was believed by some that that company would make the loan and that no proposals would be asked for.

Not until last year did the city of Lowell do business through the City Trust company of Boston. The plan to borrow through this company has been adopted by several towns and cities throughout the state, and is done as a matter of protection. The company secures the city against loss in the process of borrowing and for its services the company charges 1-20 of 1 per cent. The company's bill against the city for last year's services was about \$1000.

All proposals for loans are sent out from the office of the company in Boston. Notices are sent to the bankers and brokers. The following, a notice of last year, will serve to explain the form used by the company:

Lowell, Massachusetts.

Loan in Anticipation of Taxes.

Lowell, Massachuseits.

STOCK MARKET PROUD OF RECORD

James Murphy, Safe Blower, is in Custody Again

NEW YORK, Jan. 6.—"Yes, I'm James Murphy, alias Connors, allas St. Liverpool Jack and it few other fanciful names, and I'm the same Murphy intat helped Shang Draper, Red Leary and Jimmy Hope rob the Manhattan hank hack in the early "10's," was the almost proud confession of a white haired man taken to police headquurters yeslerday on a charge of carrying burglar's tools.

Liverpool Jack and his gang of safe blowers were perhaps the most notorious criminals with which the New York police department ever dealt. After rehearsing the old Menhattan bank robbery yesterday for Inspector McCafferty and the department for the Salvation Army's convicts' home on the conference of the Gloversville job and sent to Sing Sing for five years for five gars for five years for five about it. I had to subpose the town marshal and police judge to prove that I did it and then I was sent to prison were the happlest of my long life."

McCafferty asked Murphy now that spend the remainder of his life in the Salvation Army's convicts' home on the conference of the Gloversville job and sent to Sing Sing for five years for five years for five years for five years for the about it. I had to subpose the town marshal and police judge to prove that I did it and then I was sent to prison were the happlest of my long life."

McCafferty asked Murphy now that spend the remainder of his life in the Salvation Army's convicts' home on the control of the control of the five were five for the Gloversville job and sent to Sing Sing for five years for five jears for fi

told why he had continued to be a bur-

told why he had continued to be a burglar.

"After finishing my six years for the bank robbery," said Murphy, "inspector Byrnes railroaded me to Sing Sing for five years for a safe cracking I never did. When I got out I resolved un revenge and a pail of mine and I came near blowing the safe in Byrnes office.

"I went to Glowrsville in 1825 and blew a safe there and as I was getting away, with the money on me, I was arrested by the town constable, I pretended drunk and they charged me with vagrancy. The judge asked me

spend the remainder of his life in the Salvation Army's convicts' home on Long island, and Murphy haughtly replied:

"Chief, I told you long age that for me it was either freedom to go and do as I pleased or Sing Sing, and I haven't changed."

The inspector offered the aged and persistent criminal a cigar, but Liverpool Jack declined it with:

"No thanks; I don't smoke, Never have. Never drank. Can't drink or smoke and do good work."

When he was asked how he got the name of Liverpool Jack a lump came into his throat and after a moment he replied:

"Perhaps there's a remove the side of the property of the start of the side of the side

SEATTLE. Wash., Jan. 6.—A. D. Burton, an Alaskan prospector, declared untrue yesterday the story told by Dr. Frederick A. Cook about rescuing Burton from a bear.

"The year of Dr. Cook's last trip to Alaska I had an experience with a bear that came near ending my life and I was chewed up protty severely. I was greatly surprised when the Cook magnitude article was published to see in it my picture and the story of how the Cook party had rescued me from the jaws of death. As a matter of fact Cook was not within 15h miles of me at the time. In the magazine also was a picture of my struggle with the bear, which, of course, was a fake."

THE LOWELL SUN

JOHN H. HARRINGTON, Proprietor

SUN BUILDING, MERRIMACK SQUARE, LOWELL, MASS. Member of the Associated Press

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1909 was

-16,828

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilotte, pressman, of The Sun, before J. JOSEPH HENNESSY, Notary Public. me, January 1, 1910.

This is by far the largest average circulation of any newspaper in Lowell.

A woman who says she and her family are in want has written The Sun telling her circumstances, but she has failed to give either name or address. People in such circumstances should consult some member of the charity board or call at the office of that body.

HAVERHILL'S CONFIDENCE OF SUCCESS.

The city government of Haverhill seems to be the most confident of all that inaugurated officials last Monday. It seems that the government by commission under the new charter has thus far been a complete success. The chief officials assert that many doors to reckless expenditure have been closed and that the city will always get full value for its money on every dollar expended. The charter is new as yet and it is safe to say that none but the best-men have been allowed to hold office under its provisions. With men of a different character in charge a very different state of affairs

THE FINGER PRINT SYSTEM.

The efficiency of the finger print system in the identification of criminals was well illustrated the other day in the detection of two French soldiers who killed Mme. Gouin, a prominent Prench lady, while riding on a train near Paris. The woman's body was found under the train, and the clue which led to the detection of the soldiers was the bloody thumb print of one of the men on a railroad ticket given the conductor. This is but another proof of the value of the finger print system in the identification of criminals or others and its great assistance to detectives and police departments in general.

TO INVESTIGATE HIGH PRICES.

The department of agriculture is to investigate the high prices of food. The agents of the department seem to believe that the farmers are not getting a fair share of the profit from the high prices, and that either the middle man or the retailer is reaping the principal benefit from the high prices. There is little room for doubt that speculators and trusts are responsible for the very high price of farm produce. It will be interesting to know what conclusion the department of agriculture will reach in the matter. There is certainly need of a movement to expose the agencies responsible for putting up the cost of living to its present high figure. The government, we believe, is largely responsible for the state of affairs on account of the high tariff which shuts out foreign competition and shelters trusts that can stamp out domestic competition.

. MRS. DUFF'S CAMPAIGN CIRCULAR.

The campaign going on in Boston for the school board has its amenities as well as the campaign for the mayoralty. Mrs. Julia E. Duff is quite a figure in the school campaign, and one of the documents she has issued recently has attracted considerable attention. She holds that more time should be given in the primary and grammar schools to reading, writing and arithmetic, to the old fashioned book-learning and to forming habits of accuracy and concentration of thought. She says further, it is time to leave our teachers unhampered and unintimidated and to have efficiency rather than age a test of ability.

One of the features of her campaign circular is the reproduction of a set of examination questions for the pupils of the Hancock school in Boston in 1854 or 56 years ago. The list of questions which she prints is certainly far more difficult than would be submitted to any grammar school class at the present time. Indeed it is doubtful if many high school pupils could answer all of them. We shall give two of the most brief as an example:

What is the area of each of the four largest agent sinds can be drawn within the square containing 2116 feet?

If the centres of the several sides of a square be the extremities of the diagonals of an inscribed square whose area is 625 inches what is the area of that part of the former square cut off by one

If Mrs. Duff-submitted the examination paper of 1854 to the grammar school pupils of today the percentage attained, we believe, would be less than 25 percent. Her argument for more attention to the essential branches should appeal to the common sense of the people. It is one of the greatest needs of the public school system today.

THE DRIVE AGAINST ENGINEER BOWERS.

The common council has apparently some grievance against. City Engineer Bowers, judging from the fact that it voted for a different candidate. If there is any charge against Mr. Bowers that could in any way he urged as cause for his removal, it should be made public, but if there be no charge, as we believe there is none. City Engineer Bowers should not be removed simply because somebody else wants the position. Furthermore, If an attempt be made to remove Mr. Bowers for political reasons the demoeratic members of the city council should remember that they are therefore under a double obligation to vote for him.

No new engineer, however capable, could take charge of that department and affain anything like the efficiency shown by Mr. Bowers without years of experience. To place a man in the engineer's office without the familiar technical knowledge which Mr. Bowers possesses of every detail of our sewerage system, water levels, grades and other detail in regard to 'streets, roads and bridges, emergencies might arise in which the city would suffer heavy loss. The members of the city council who vote against Mr. Bowers are not voting for the hast interests of the city,

Moreover, as a matter of municipal gratitude, Mr. Bowers should be retained in the office, because it was through his engineering skill, his foresight and investigations that we came to adopt the incomparable driven well system for the water supply which we enjoy today. The man who was mainly instrumental in giving us one of the best water supplies in the country should receive at least fair treatment at the bands of officials who may not be cognizant of the invaluable service which he has rendered

SCENE FROM "THE CIRCUS MAN". WITH MACLYN ARBUCKLE

LOWELL OPERA HOUSE

Maclyn Arbuckle says the biggest task of his life, and the one requiring the most gril, was the flashlight photograph taken when imagens, the clephant soubrette, who assists him in "The Circus Man," had her trusk around Mr. Arbuckle's the clephant soubrette, who assists him in "The Circus Man," had her trusk around Mr. Arbuckle's pose is part of the action of the play, and in the performance is one of the hig moments of the first net.

On this night the fibshlight photographs were taken, Imagene was a triffe nervous, and when the seented the smell of the powder, and felt the shock of the first explosion, she started to return to the stage, and with the runk around Mr. Arbuckle's with ber trunk around Mr. Arbuckle's with seen the cxplosion.

If Arbuckle went bravely to the worse than chashing desperadoes, as triffe nervous, and when she seented the smell of the process, but still she had a nervous shigh moment of his life—worse than chashing desperadoes. If we did when he was deputy sheriff in Texas. He fortilized himself with a criffe nervous, and when the flash came and Imagene tightened her grip shock of the first explosion, she started to return to the stage, and pose for other pictures, but cach time the flashight was set off she lumped.

If a chapter to the action of the play and in the performance is one of the sign but a cach time the flashight was set off she lumped.

If a chapter to the flash grid to the process, but still she had a nervous sign but cach time the flashight was set off she lumped.

If a chapter to the flash grid to the process, but still she had a nervous sign but cach time the flashight was set off she lumped.

If a chapter to the flashight was set off she lumped.

If a chapter to the flash grid to the flash grid the stage and the process, but cach time the flashight was set off she lumped.

the business staff of "The Circus Man" Mr. John J. Dalton and Miss Ethel company, left the auditorium, fearing Knowlton will sing two finety illustrated songs. A special feature offered by the Coyne was committed to jail. He was

"THE GIRL FROM RECTOR'S"

"The Girl From Rector's" which played for seven months at Weber's Music Hall, New York, holds every record there. Despite the fact the capacity of the house is considered small the receipts during its remarkable run never ran less than \$14,000 a week.

JOHN DREW JOHN DREW

The smartest theatrical event of the enrient senson will be the appearance of John Drow at the Lowell operations for one night, Friday, January 21st, when this most deligitful of all loggish speaking light comedians will be seen in his newest comedy success, "Inconstant George," a play in which he recently closed one of the most successful New York engagements of his long career.

"Here are "

"ISRAEL,"

"ISRAEL,"

Henri Bernstein's "israel," which is generally regarded as the biggest dramatic play the stage has seen in a great many years is said to be not only a more than interesting dramatic narraftee but it possesses the action of ideas as well as physical action. The basic principle of the play—the great central idea—is the never threadbare scheme of the conflict between the Hebrew and the Christian. The play is said to be action, action all the time and in the great second act the spectator is carried along as if by a resisties flood. With the complete Manhattan production and the original cast Charles Frohman will present "Israel," at the opera house soon.

HATHAWAY THEATRE

A specially selected combination of acts at Hathaway's theatre this week cannot fail to attract very large audichces. Just the proper mixture of pathos and gaiety is shown. In the former class may be mentioned Homer Lind in his touching little musical play called "The Opera Singer," and Ethil Fuller in "A House of Cards," the latter strongly dramatic and gripping from the outset. These two plays surely apply the requisite "straight" touch to the bill.

On the lighter side are the Quigley brothers, who revel in quaint Hibernianisms, and who are in a class by themselves when it comes to their specific the straight of the comes to their specific the straight of the comes to their specific the straight of the comes to their specific themselves when it comes to their specific themselves.

themselves when it comes to their spe-cial line of endcavor; Alva Maglil, an attractive character singer, and Goff Phillips, a ministrel jester. The Four Casting Dunbars do some thrilling midair work and LcCompt, the fire king, opens the program well. Motion pletures close it. Performances will be given every

afternoon and evening during the re-mainder of the week, with special seats at the matinees for women.

ACADEMY OF MUSIC

At the Academy for the remainder of this week Luken's Tromp of per-forming lions have been obtained by the management at great additional the management at great additional expense. When you see Prof. Luken nut his family of great eats through their tricks you will realize the patience land 'perseveration, to say nothing of the courage he must have had to accomplish the results shown. This Juliette Wood will appear in initations, entirely new motion pictures will be shown, and Miss Claudia. Besette, the singer of illustrated somes, sette, the singer of illustrated songs will appear at each performance Prices remain the same as usual, 5 and 10 cents.

. THEATRE VOYONS

The Theatre Voyons offers today a picture that in subject is most up-to-date as it has for its plot a story of an airship war, such as may be seen hundreds of years bence. "A Battle in the Clouds" is the title of this remarkable picture. The principal scene shows a battle in mid-air with several alrabins in action, also the destruction of a village by fire of the invading airships. There are many other pictures or the bill and the sours are well seon the bill and the songs are well se lected and tholy sung.

STAR THEATRE

The Spanish song birds, two clever young women, have one of the most movel nets ever seen. The singing by both young women is excellent and is warmly applauded. An Oriental sketch is a feature. These are new motion pictures, and illustrated songs. The admission of five cents allows a seat.

MATHEW PICTURE PALACE

There will be a change of program at the Mathews toulght when only the very latest and best pletures will be shown to the patrons of this theatre.

Coyne Was Charged With Robbery

BOSTON, Jan. 6 .- James Coyne, 22 rears old, of Parnell street, Roxbury. was held in \$2000 yesterday by Judge rest them

trated songs.

A special feature offered by the Mathews for next Sunday evening's arrested early yesterday by Special Oftwenty-five volces by the Twentieth Century Bachelor ciub. through the south end and a short but

determined fight with the prisoner.

John Bond of Shawmut avenue was
the victim of a robbery, and he said
that Coyne was one of three men who
had beaten and robbed him of \$45 at
the corner of Northampton and Washthe corner of Northampton and Washington streets early yesterday morning. The policeman heard a man's ories for help and saw three men beating a fourth man, who was lying in the street.

Clifford captured one of the fleeling men, who proved to be Coyne. The other two men escaped. The police have an idea who they are and expect to averset them.

Fireless Cooker Free

to users of Mother's Cereals These cereals are famous for quality among the housewives of America, Carefully our buyers collect the finest grain in all American markets. They are known as being finicky. Carefully our mills pick from this cream the ripest, choicest grains. Carefully our mill hands pick from these kernels the biggest, the fattest, the finest. Only the best grains ever find their way to a Mother's package. Carefully this product is selected from the select, is cleansed, then sterilized and packed in a Mother's sanitary package. Here is a list of Mother's Cereals. Every one is the best of its kind. Mother's Yellow Corn Meal

Mother's Oats

Not like other oats. Not only folled to make their cooking easy, but crushed to make them easily digested.

Mother's Wheat Hearts (The cream of the wheat) Is a pure granulated wheat food thoroughly sterilized and easily di-gested.

Mother's Corn Flakes (Toasted)

The best corn, big, full, sweet corn, shaved as thin as a whisper and toasted into a rich golden yellow. Mother's Old Fashioned Steel Cut

Thoroughly pan roasted, all of the natural sweetness of the oats retained and makes the best gruel.

the corn bread, cakes, mush and Mother's White Corn Meal Carefully prepared from the finest grains. Delicious for corn bread

The kind from which you can make

grains. Delicious for corn bread and cakes. The kind dearest to the heart of the southern housewife. Mother's Granulated Hominy Made from carefully selected white com, by modern methods of manufacture. A food far superior to the

ordinary hominy, Mother's Coarse Pearl Hominy Made from selected white flint corn of the highest quality. Coarser than Mother's Hominy Grits and requires a little longer in the cooking.

The Mother's Oats Fireless Cooker, given free with coupons found in Mother's Cereals, needs no fuel of any sort. Ask your grocer how you can get one free. If he doesn't keep Mother's cereals, send us his name and yours and we will send you free a useful souvenir.

GOVERNOR'S

BOSTON, Jan. 6.—Gov. Draper in contracts and arrangements for the it being interstate business, the food ceive proper pay for the service rend. in our minds this year, we ought to improvements in railroad properties the depositors in our savings banks Bentlemen of the General Court of

Massachusetts: In presenting my second message for your consideration. I desire first to thank the people of Massachusetts for their renewed expression of con-

fidence in me. Finances

The net direct debt of the commonwealth of Masaschusetts on Dec. 1, 1909, was \$18,980,755,42. This debt on Dec. 1, 1908, was \$17,669,372.69. During the past year, therefore, the net direct state debt increased \$1,-211,382.73. The net metropolitan debt, or contingent, debt, as it is called in the auditor's report, was, on Dec. 1, 1909, \$60,676,311.03. On Dec. 1, 1908, this debt was \$60,428,-223.14—so that this debt has increased during the past year \$248,-087.89. There have been issued during the year, charged to the net state debt for permanent improvements, new bonds amounting to \$2,326,300, while bonds have been paid amounting to \$2,552,500. The metropolitan debt was increased by bonds issued for permanent improvements amounting to \$1,643,000, and was decreased by payment of bonds to the amount of \$8000 and a contribution to the sinking *fund of \$1,368,912.11.

The receipts from miscellaneous sources of revenue during the year ending Dec. 1, 1909, were \$7,694.-776.10. The state tax was \$4,500,000. so that the total revenues for the year, exclusive of cash on hand, amounted to \$12,194,776.10. There was paid out for expenses during the year \$12.-822,559.24, so that the cash on hand was quite substantially reduced from Dec. 1, 1908, to Dec. 1, 1809.

We have in the last year, in both classes of debt, issued bonds for permanent improvements, but we have not increased either class of debt as much as the amount of such bonds. The net debt was, however, in each case greater on the first day of December, 1909, than it was on the first day of December, 1908.

The annual charge for interest on the net direct dont in 1909, reckoned at 314 percent, would be something more than \$650,000 a year; while on the motropolitan debt the annual interest charge, which has to be paid by the metropolitan district, at the same rate of 31/2 percent, would be more than \$2,100,000 a year.

I call these matters to your attention, and ask you to seriously consider whether it is not time, in making your appropriations, to provide for a substantial payment each year on the principal of the not direct debt. It also seems to me that it is time that the principal of the metropolitan debt should begin to be decreased, as the annual interest charges are constantly growing larger and becoming a heavier burden.

The expenses of the commonwealth creased number of unfortunate people who had to be cared for in our various institutions, and we must expect this to be larger in the future. This fact should be taken into consideration in making your appropriations for the current year. It is obviously necessary, with the finances of the commonwealth in their present condition, to practice economy in every expenditure, and certainly no large new undertakings should be started which are not absolutely necessary, except those which are for the proper care of our sick and unfortunate Municipal Accounting and Registra-

tion of Municipal Loans

The bureau of statistics is doing a large amount of work in connection with municipal accounting reform. It is a legitimate function of the commonwealth to assist its municipalities, and especially the towns, in devising methods by which their affairs can be better administered to their own advantage, and it is highly desirable that It should do so in the interest of all our citizens and of investors in municipal securities.

The very unfortunate occurrences which came to light during the past year in connection with the finances of the town of Framingham have brought forcibly to the attention of the people the necessity for some reform the method of issuing municipal loans.

I suggest that some plan be adopted contiring the registration and certification in the office of the burgau of statistics, of all lown and city loans.

There are many people interested in this subject who have suggested varions methods by which this can be some, and I submit the general subjest to your attention, with an earnest request for prompt and wise action.

Interest on War Loans It has been called to my attention that there are certain equitable claims for reimbursement of gold promium and interest charges paid by the commonwealth on its war loans, which the federal government may properly be asked to pay, after embling legislation has been enacted at Washington. The sum of issue is a large one, amounting to more than a million dol-

At the present time there is no au-

his inaugural address delivered today presentation of these claims. Under products must be inspected by offisection 79 of chapter 6 of the revised cers of the United States stationed in laws, the governor, with the advice the slaughter-houses where the aniand consent of the council, is given mals are killed, and these animals authority to make contracts to collect, and carcasses are examined thoroughmoneys due the commonwealth of ly, by trained men, before and after Massachusetts, "except any claim for reimbursement of interest paid by the thing which renders meat unfit for commonwealth on its war loans." food, it is seen by these inspectors These claims to which I have referred are in part for "interest paid by the meat which is fit for food is permitted commonwealth on its war loans," and to be shipped from one state to anit is necessary for the legislature to take action, in order to give the gov- personally looked into this examinaernor and council authority to make proper arrangements to prosecute I am satisfied that the government in- ing the past summer were most benethese claims. I therefore recommend that such action be taken.

Education

The reorganized board of education was appointed on the thirtieth day of first day of July. The members have anything up to the present time except to familiarize themselves with present conditions and engage a commissioner of education. As the old commission on industrial education and its officials went out of office when the new board came in, the members of the new hoard were themselves obliged to devote a great deal of time and attention to the ordinary routine work which was required until they could decide on a commissioner of education and get the new board thoroughly organized. They have now engaged their commissioner, and are carefully studying the questions which come within their province, especially tho matter of industrial education, and how best to adapt it to our present school system.

They find that the statutes under which industrial schools may be and have been established are not clear; and, because of this lack of clearness, many questions have arisen in the past, under the commission on ineducation, in regard to socalled independent industrial schools, which need to be settled and which can be cleared up only by new legislation. The board of education will ask for such action as it deems necessary, and will explain in detail the reasons therefor and what it desires to

accomplish. This question of industrial education and how, it shall be worked in harmony with, and very likely become a part of, our public school system, is a great one. The board has not had time as yet to properly study out and formulate a definite policy. It is not desirable that the commonwealth should rush into this matter haphazard, and without careful consideration and a definite plan.

We have an able board of education, which is earnestly devoted to its duties, and during the present year it will have time to, and will, formulate definite plans as to what should be done for the real advancement of this important work. In the meanwere materially enlarged during the and bad judgment to create separate time, it would be an unwise policy and individual schools for industrial education which would not be integral parts of our whole school system.

Much can be done this year by the board, and legislation will be requested which will permit such work as is deemed proper; but it will, after the passage of new legislation, require some time to study out a system be fore the board will be able to go ahead with a completed plan of education which shall include industrial education as one of its principal and com-

lbrary

More room has been given to the state library, and the trustees and the librarian are plunning to use this farmers. space for legislative reference work, This will necessitate the employment of an assistant in this department, and I recommend an appropriation sufficient to meet this extra expense, and also a reasonable increase in the salary of the state librarian.

Free Public Library Commission This commission has done excellent work for many years, and the people of every town in the commonwealth now have the opportunity to obtain books from a free public library. It the commission should be given more assistance. The appropriation of the commission should be somewhat increased, so that it may have additional help for performing its clerical throughout the commonwealth.

Meat Inspection

During the last year much interest was taken in and attention given to the improving of conditions under prepared for sale. There was a feeling that meat infected with the germs of disease might be sold as food; and caused the legislature to pass laws intended to prevent the sale of infected meat, and also to order an inquiry by the state board of health into the methods of slaughtering, in Massachusetts, of animals to be used for

Of all the animal food products

being slaughtered. If there is anyfood, it is seen by these inspectors and the carcass is destroyed; and only other or to other countries. I have tion in various slaughter-houses, and spection is scientific and adequate. This applies to the great bulk of the

the people of this commonwealth. The local conditions which are per-June, 1909, to take office on the the mitted to exist in this state are not, in mobilize on a given day at given the insane, the number of which unmy opinion, good. > should be effected, so that the com- ing a week of most active service, monwealth may be divided into dis- during which time there was some tricts, having expert inspectors who very severe and disagreeable weather. slaughtered, and who shall also ex- property of our citizens by the officers amine the careasses to see that they and men was almost negligible. are in proper healthful condition to be sold for food.

The appointment by the commenwealth of a given number of such inspectors to look after these conditions would cost considerable; but people would be better protected from disease than they now are in the meat pense, although quite an item, should not be controlling. While the expense would be quite large to the state, much of it would be saved directly to the towns and cities, as they would be relieved of that which they now have to incur for inspection.

I recommend that careful consideration of this subject be given, and that action be taken so that all these conditions may be improved and a new system of local slaughtering established; and I suggest that the standard of inspection be made the same as that now required by the United I do not think States government. our conditions in this respect, are worse than in many of the other states, but we cannot afford to be which is the best; and I urge prompt; and wise action in dealing with this this result. most important question.

Milk Conditions

The production of milk and the way lt shall be sold is a problem which seems very difficult to solve satisfactorily to both the producers and consumers. There has been much discussion as to whether the standard now required by law, of 12,15 percent. of milk solids and 3.35 percent of fat, is right. I do not pretend to express an opinion based on knowledge in this; hespital school at Canton, which is a respect, but I have not been able to see any way in which the consumer ant work. and the honest producer of milk can be properly protected, unless a standard of quality shall be established and maintained by law.

While I thoroughly believe in a ducers, because milk from other states now ninety inmates. can be sold in Massachusetts under

It is further a fact that for some reason the number of neat cattle in is decreasing. In the year 1908 there; were 3300 head less of neat cattle than Blarch, 1910, to accommodate the act of the last legislature, chapter monwealth, may be easily ascerin 1907, and on Nov. 30, 1907, the record showed a decrease of nearly there were 13,000 head of neat cattle less in Massachusetts at the beginning of 1909 than there were at the end of 1906. This proves conclusively that the keeping of cattle for milk in is not desirable that the towns should Massachusetts is not an industry that have too much state assistance in is growing, but one that is declining. this direction, but it is essential that This is unquestionably bad for the commonwealth. As the consumption of milk seems to be constantly increasing, it must be brought in from other states. Our farming industry in this respect is not flourishing. It is work and visiting the various libraries not profitable for the farmer to raise patients. and sell milk under existing condi-

I believe that the legislature should pass laws, if necessary, so that the farmers of this commonwealth can which meat, to be sold for food to the ship their milk through the direct people, should be slaughtered and agency of the rallroads, rather than be obliged to deal through contractors who practically handle the shipping of milk for the railroads. Whether the fear that such conditions existed or not this would result in cheaper milk to the consumer, I do not know; but I do not believe it wise for the great carrying agencies operating to sublet these privileges to any one,

Every man who desires to ship milk to the cities of this commonwealth consumed in this commonwealth, a have the right to deal with them diered, and should not be obliged to provide well for the care of our un-take milk at every station; but proper fortunate insene, and erect whatever provisions should be made so that milk dolivered in reasonable quantities at particular points should be carried by the rallroads at reasonable rates to the large centers of population where it is to be consumed. I believe if this were done many of the complaints which now exist concerning the milk question would disap-

Publicity

I recommend the enactment of a law which shall require the issuance annually of a public document containing correct information in regard to board or commission, so that such salary or pay, and also the date of election or appointment and residence of each officer or employe of the comtained.

Senators and Representatives:--I am glad to say that the material conditions in the commonwealth and the nation have been very much better during the past year than they were in 1908. The great crops of the west have been bountiful, and the prices of which they have sold have been high. The cotton crop of the south is probably less than usual, but the farmers prices for their product that they are presperous. The manufacturing in-dustries in all lines are busy, and the people are employed at good wages, The whole nation is prosperous.

As a people, however, we are not economical; we are unnecessarily wasting our natural resources, and extravagance has become a habit. The price of everything is high, and this ought to put a premium on economy. This is not a proper time or place to discuss the reasons for these high prices, but it is well known that the enormous increase in the production of gold and the higher wages paid in every vocation of life must be two of the great contributory causes.

In spite of these high prices, Massachusetts has been extremely prosperous and our savings banks have shown the largest increase in deposits of any year in our history, the total increase being \$33,581,751, makduring the past year have amounted to \$27,110,047. The deposits put in these banks in 1909 were about \$16,-000,000 more than in 1908, while the withdrawals of deposits in 1999 were

\$15,000,000 less than in 1908. The above shows in a most graphic manner the tremendous change in conditions which has taken place in the last year. Notwithstanding the provailing high prices, our people have saved money, and this means prosperity.

You, as the representatives of the people, have a sacred trust imposed upon you. It is your duty to see that the resources of the commonwealth shall not be wasted, and that the money of its citizens shall be wisely and properly expended. The legislatures of the past in Massachusetts have established a great record for the enactment of laws which have been in the true interest of the people. Your immediate predecessors maintained the high standard which had been set for them. I have no doubt that you will do equally well, and Ipromise to use my best endeavors to co-operate with you in accomplishing

DIAZ

To Discuss Peace With Pres. Madriz

MANAGUA, Jan. 6.-Managua is fubilant over the prospects of early peace. President Madriz made public this evening a telegram which he had received from General Fornes Dlaz, one of the leaders in General Estrade's insurgent army, saying that he was leaving Roma for Managua to discuss

deaving farma for stanging to decess the situation with the president.

General Dlay's telegram follows:
"Bd assured of our patriotism and of General Estrada's homorable character.

I am leaving for, Managna to settle the country's situation with you directly."

President Madriz also gave out to President Madriz also gave out a

President Madriz also gave out a telegram, which he has received from General Estrada, in which Generals Gonzales, Castrillo Gomez and other prisoners are reported as well. Minister General Paca has issued a decree, fixing 1,800,000 pesos, guid, which is equivalent to 3,000,000 paper, as the amount of the forced war lax.

Zalaya only levied a tax of 2.000,000

Zalaya only levice a tax of 2.000,000 paper.

One quarter of the new tax is to be collected immediately. The decree has caused consternation.

Minister Baca has explained privately that no offense was intended towards the United States in his speech at the banquet given in honor of General Irlas when he said that the course of the revolutionists was receiving encouragement from some quarters and that the inhabitants of Granada were growling at the feet of minor officers of the United States.

Minister Baca protests that he has a great admiration for the United States.

Details of the Great Deal

NEW YORK, Jan. 6 .- Details of the Guaranty-Morton-rifth avenue Trust Co. merger were made public last night after a meeting of the hoards of directors of the three companies. Among other thinks a further increase was authorized in the capital stock of the Guaranty Trust company as titular head, from \$3,600,000 to \$5,000,000.

pon the complition of the merger, the Contrainty Trust Co, will have a capital stock of \$5,000,000 with surgular, including all undivided profits, of approximately \$21,000,000 and combined deposits of \$126,000,000.

MINISTER MORGAN

MINISTER TO CUBA

HAVANA, Jan. 6.—The long mission of Edwin V. Morgan, the American influsive to Unda. terminated yesterday morning, when he exided for the United States. He left Norval Richardson, second secretary of the legation, as charge d'affaires. Mr. Morgan was essecuted to the steamer by all the members of the diplomatic corps, representatives of the Cuban government and army, and the most prominent representatives of all the foreign colonies.

Minister Morgan's last official and was to notify President Gamez that the American government had withdrawn its objection to the proposed exchange of the Western Rallways Villa Nueva station on the Prado for the Innis of the arsenal on which the Western and United rallways of Havana, both English companies, will erect a great union terminal. The rallways have agreed to muite and form an American Terminal company,

Amberola Che newest EDISON

-A wonderful musical instrument, a beautiful piece of furniture—a Phonograph with the horn built in as a part of the cabinet.

A trained musician may purchase a piano, simply for the beauty of its tone and the lightness of its action.

The real home maker will purchase for this and more. The instrument purchased must be a delight to the eye as well as to the ear—a part of the home. And that is just "the why of the Amberola"— combining as it does, all the tonal beauty of the Edison Phonograph, with the added richness, simplicity and charm of a masterpiece of cabinet work comparable only to the highest grade piano.

The Amberola comes in several finishes of Mahogany and Oak to harmonize with surroundings in your home. It has drawers in the lower part for holding 120 records. The price

is \$200.00. Hear the Amberola at your dealer's today play noth Amberol and Standard Records.

Slezak—And be sure to ask to hear the new Grand Opera Amberol Records by Slezak-the great tenor of the Metropolitan Opera House, New York, who is the greatest Grand Opera sensation since the days of Jean DeReske.

TO SEEK PARDON ANNUAL SUPPER BADLY INJURED NEW SANITARIUM

Pres. Taft Will Be Asked Free Charles W. Morse

ATLANTA. Ga., Jan. 6.—"While I have life I expect to continue the fight to secure the release of my husband," said Mrs. C. W. Morse in an interview yesterday afternoon, "and I expect to win the fight. I am confident that the sympathy of the country is with Mr. Morse."

The interview received the country is with Mr. The interview research of the special of the spec

win the light, 'I am confident that the sympathy of the country is with Mr. Morse."

The interview occurred in the parlow of the Pledmont hotel. Mrs. Morse close friend and business associate, who has been fighting hand in hand with Mrs. Morse to secure an acquittal for the financier and who will stay in the game until he is gotten out of prison, or they are forced to give up in despair. Nothing but force of will has kept Mrs. Morse from going down and out under the strain. Though a hundsome woman, the marks of care and suffering have aged her.

"There is very little I can say," she said. "I shall be here only a few days longer. Mr. Littleton, our lawyer, has decided not to come down until after I see him, which will be just as soon as I get back to New York.

"You may say, however, that a great petition will be sent to President Tuff saking him to pardon Mr. Morse. That get him, which will be referred by the younger convicts on construction work, and he will either performed by the younger convicts on construction work, and he will either grown or some task in

I get back to New York.

"You may say, however, that a great petition will be sent to President Taft asking him to pardon Mr. Morse. That netition will have over 1,000,000 signatures. I have received over 100 telegrams today urging me to send out a petition for signatures."

but gave way to Mrs. Morse.

Morse has not been assigned to any work in the prison. His age and lame leg unfit him for hard manual labor performed by the younger convicts out construction work, and he will either the given elerical work or some task in the room where clothing is made.

tors Gorham street Telephone \$50 I issue a statement in a few days.

The annual church supper, meeting and roll call of the Pawtucket church was held last night. Supper was served at 7.30 by the ladles of the church and under the direction of Miss Harriet Jameson, assisted by Mrs. J. P. Fowler, Mrs. A. H. Marshall and Mrs. Norman L. Peavey.

tucket Church

The annual meeting was called to order by the pastor, Rev. F. G. Alger, and

REV. F. G. ALGER.

he first report to be heard was that of he clerk of the church, Dr. J. J. Colton. It was stated in the report that the church debt had been reduced to less than \$400, and that was good news.

Resolutions on the death of Mrs. Josephine Chase, who left a legacy to the church, were read, and funanimously

Supt. Norman L. Peavey of the Sunday school made his report through his officers. Mrs. A. M. Horr reported a total of 57 scholars in the primary department, exclusive of the kindergarten. Miss Ina McKinley, the secretary, reported the activities of the school during the year and recorded a total of 452 scholars. The treasurer, George B.

WASHINGTON, Jan. 6.— With a view of making international orbitration judicial in fact as well as in theory Secretary Knox has addressed a circular note to the powers, proposing that the jurisdiction of the international prize court, as such, presupposes a state of war, for without war the capture of property is illegal. "The court would be permanently constituted and would in reality be permanent, obviating the delay involved in the creation of a temphrary tribunal, and developing international as who a sories of carefully considered precedents by judges carefully chosen and acting under a source of judicial responsibility. "Arbitration would not merely be, as both Hagus conferences have said, the most effication and the reasons the proposal was made was given out last night by Secretary Knox.

The international prize court was to be composed of fifteen judges, eight of whom were to be chosen from the larger maritime countries—Germany, Austria-Hungary, France, Great Britain, Italy, Japan and the United States—and they were to serve six years. In his slatement Secretary Knox explains his reason for suggesting that the jurisdiction of the prize court has adventured that the prize court might present the question in the matter of direct appeal from their rational courts to the prize court of arbitration for a permanent court of arbitration for a permanent court of arbitration for a permanent court of arbitration for a court of arbitration of the capture at issue, and that the jurisdiction of the prize court is the prize court of arbitration for a court of arbitration of a court of arbitration of a court of arbitration where a songe of judicial formation and a court of arbitration where a songe of judicial formation and most equitable by a formation and most equitable by a formation and the prize court of arbitration where a song

For the Pawtucket Brotherhood the istor also reported good progress and look occasion to thank the "sisterhood"

for co-operation. Dr. Colton as treasurer gave a detailed statement of the financial condithe distribution of the church. C. A. Richardson spoke of the results of the envelope system and commented on the excellent work done in this line by Deacon P. P. Burbank for the last six and a balf-year.

odies who served the supper and to sistent drizzle which froze as it fell, the

A vote of thaths was passal to the ladies who served the super and to the retiring officers.

Officers for the year were then elseted as follows: Clerk and treasurer, Dr. J. J. Collon; deacon for four years, N. L. Peavey: Sunday school superintendent. George B. Tunner; assistant, Mrs. Justus Richardson; secretary, Miss Ina McKinley; principal of the primary department, Mrs. Mabel Gregg; treasurer, Harry Peavey; auditor, C. A. Richardson; membership committee, the pastor, Mrs. C. G. Coburn, Miss Idzie Coburn; chairman committee on ushers, George Dennis; chairman committee on lecerations, Miss Hortense Tabor; committee on benevolence, the pastor, Mrs. Thomas Varnum and Deacon A. M. Horr.

The meeting closed with the roll call of members.

TEDDY LEWIS

FORMER LOWELL POLO PLAYER third story of the administration build-INJURED

Teddy Lewis, star rusher for the Grays, was given a reception which did his heart good when he arrived at In-fantry hall last night, and another and a bigger one when he left. Lewis is out of the game with a bad foot, but he was able to get down to Infantry hall last night in Dutee Flint's auto-mobile and watched the game from hall last night in Dutee Flint's automobile and watched the game from a seat in the bullcony. A small crowd of the ever present street gamins recognized him as he hobbled up the stairs on crutches and set up a yell for him. The word was passed around the hall that the real Lowis was there, and when he started to come down after the game as large sized crowd had gathered. As he was being helped into the automobile some one yelled, "Tree cheers for Teddy Lewis:" and they were given with a will. The smile which lighted up the pole star's face showed how deeply he appreciated the honor. tonor. - Lewis will go to the hospital to have

Lewis will go to the hospital to have a slight operation performed on his foot within a day or two. A slight gathering of pus on the instep has been noticed, and the skin must be broken to let it out. After that it will heal up rapidly, it is said, and Teddy hopes to be back on the rush lines shortly. While he is away he has with him the sympathy and well wisites of everyone who has seen him play.—Providence Tribune.

Lewis is well known and has many friends in this city, he having played two years on the Lowell pole team. It will be with regret-that the Lowell fans will learn of his injury.

will learn of his injury.

EDUCATIONAL CLUB

The "Social Tea" held by the Educational club yesterday proved to be a very successful event. The attendance was large and Mrs. H. P. Haines of Maiden, gave an interesting and descriptive travel talk on her trip from Boston to California.

noston to California.

The hospitality committee served a dainty luncheon; the lable decorations were unique. Souvenir greetings were given to the members. Mrs. Horace Clement poured.

Mrs. Dudley

NEW YORK, Jan. 6 .-- Another member of the Cook family-this time Mrs. Josephine Dudley, a sister of the discredited explorer's wife, made a state ment last night.

Mrs. Dudley says that Dr. Cook is nervous wreck, unable to think consecutively and that the reason he remains in hiding is that he could not stand the strain of further controversy.

"We are praying," says Mr. Dudley. "that he will soon recover, so that he may come forward and defend himself. Mrs. Cook is at her husband's side, She loyes him and trusts him. There has been no quarrel, there never was any trouble between them about money."

trouble between them about money."
Mrs. Dudley received a message yesterday, she said, from Walter Lonsdale, Dr. Cook's secretary, dated Copenhagen, and reading as follows:
"Cable Fred's address at once. All important. Must see him now."
Mrs. Dudley has not answered the message yet, because she fears it may be a trap. The doctor has had a disheartening collapse, she said, and it is important that his seclusion shall not be disturbed. She says she is aware of the doctor's whereabouts, but will not even specify whether he is in this country or abroad.

try or abread.

Wanrs to Know About Soldiers' Pensions

WASHINGTON, Jan. 6.—While resolutions for the purpose of obtaining information converning high prices of food products were being placed before the senate yesterday. Senator Scott said he wanted to ascertain the number of soldiers of the Civil war who were deprived of an opportunity to be placed upon the pension rolls so that they might get money to buy this food with. He said he wanted to know how many of these veterans were destitute. "Sivien senators were in that great

of these vetering were destitute. "Sixteen senators were in that great war," said Mr. Scott. "Seven were confederates and nine were in the union army. Younger men now coming into the senate, I fear, will not be interested.

the senate, I fear, will not be interested in the old soldiers and I want to see what can be done to help them while we older sonators are still here."

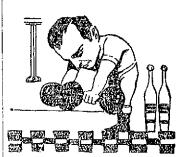

Mr. Scott introduced a resolution inquiring of the secretary of war, how many veterans are still unpensioned. The resolutions were referred to the committee on military affairs.

Were Caught in a Terrible Blizzard

IIALIFAX, N. S., Jan. 6.—Several of the fishing boats manned by fishermen from Canso, Whitehead and Dover made shore this moraing after a terrible experience in the blizzard which likew them off shore on Thesday. It was believed today that there would be little if any loss of life among the fishermen. Those who reached shore today reported sighting other fishermen xafe yesterday whila it was said that the crews of two boats have here picked up at sea by a steamer bound for Hallfax.

COOK HAD TWO WIVES JANE

A Nervous Wreck, Says Laws of China Allowed Reputed to be Improved it, Says Lem

NEW YORK, Jan. 6.—Chin Lem told

ommitted last August. Chin Is an American-born Chinaman,

It was under "China laws" he explained that he married Bow Kum in within a few days.

The Meanelson at the Chinese mission. Stir Francisco at the College mission. Then he came east, leaving word that if business here was good, he would send for her, Business must have been good, for Bow Kum followed him. He paid her rent here, he said, but they lived apart. Under cross-examination, he was unable to explain where he got his money.

he was unable to explain where he got his money.

Bow Kum had not been here long when her "China Isw" husband received a visit from two men he had never seen before. They were the prisoners now on trial, and they asked \$3000 in behalf of the Four Brothers society, Chin testified, in payment for Bow Kum, who in San Francisco belonged to Lau Hau Dong, a member of the society. the society.

Chin refused to pay. He had taken i

Com remsed to pay. He had taken the girl from the inliston, he said, not from the society; she had followed him of her own free will and he owed no one for her. The murder soon followed. Other witnesses corroborated Chin.

Relative to Fees For Naturalization

SPRINGFIELD, Jan. 5 .- The validity symmogribide, Jan. 5.—The valuaty of the Massachusetts statutes relative to the disposition of the fees for naturalizations will be put to the test in this city as a result of a sult entered in superior court by Dist. Arty, S. S. Taft on behalf of the inhabitants of the county of Hampden vs. Robert O. Morris, clerk of superior court, in action of contract to recover \$1105.85 alleged by the plaintiffs to be due the county for naturalization fees.

The amount sought represents the

The action is of a friendly nature, the money having been kept on deposit in one of the Springfield banks awaiting a decision of the question.

According to the state law the fees should be turned over to the county treasurer after deducting expenses. The law specifies that one-half the fees should be turned over to the county treasurer after deducting expenses.

in Health

Lawyer James Stuart Murphy, of the jury yesterday how he found his this city, who was counsel for Jane sweetheart, Bow Kum, lying in a pool Toppan, who it is alleged poisoned of blood on the door of her sleeping same 31 persons, is in receipt of a room in New York's Chinatown, the letter from Dr. Arthur V. Goss, super-knife she was murdered with by her side. Lau Tang and Lau Shang, members of the Four Brothers society, are pital, where Miss Toppan is conflued, on trial for the murder, which was committed last August. In health.

Chin is an Americah-born Chinaman, and a member of the On Leong Tong. Although he has spent only eight months of his life in China, he testified that he has a wife there. His English was so insufficient that he replied to all questions through an interpreter. Chin testified for the state.

"If you have a wife in China, didn't you know," he was asked, "that you couldn't marry Bow Kum under American laws?"

"I go under China laws," answered Chin.

Mr. Murphy will visit Miss Toppan

Estimates U.S. Population as 89,844,000

WASHINGTON, Jan. 6.—Thirtyfour dollars and eighty-three ceals is
what every man, woman and child in
the United States ought to have if
the \$3.122.154.538 which is in circulation were equally divided among them.
That is the statement made by the
treasury department on the basis of
an estimated population of \$9.844.000.
The lotal amount of money in circulation is about \$30.000.000 more than a

tion is about \$30,000,000 more than a year ago at this time.

THE MADONNA FLOATED

NEW YORK, Jan. 6.—Efforts to float the steamer Madonna which went aground in the harbor last night, were successful early leday. The Madonna aground in the harbor last night, were successful early today. The Madonna of the Cyprien, Fabre & Co. line was bound for Marseilles when she struck the shoal in the upper bay off Bay Ridge that held her fast. On being released this morning, instead of proceeding out to sea she steamed over to the quarantine station and anchored there.

There were no cabin passengers on

A Chemist's Discovery

NEW REMEDY FOR ECZEMA AND OTHER SKIN TROUBLES

The most remarkable feature about The amount sought represents the total amount collected by Clerk Morris for naturalizations since Sept. 26, 1996, when the new state law went into effect. Attorneys allifer regarding the interpretation of this law and Mr. Morris has agreed with the county lofficials to have a test ease made of it. The action is of a friendly nature, the Cadum, the new remedy for skin dis-cases, is that its beneficial action is out being relieved should take fresh courage, for the new remedy Cadum is different from anything else. It is the discovery of a chemist, who fell for years that the world needed a cure for exceeding and other skin diseases, and as cazena and other skin discases, and as a result of his studies and experiments. Cadum was the outcome. While possessing such remarkable powers in overcoming different forms of skin troubles, Cadum contains no dangerous ingredients. When applied over unsightly sores on the face and hands, it forms a thin almost invisible conting. GRANITEVILLE
